1. INTRODUCTION

1.1. Objective of the document

This manual provides information on how to use the Service of Documents (SoD) & Taking of Evidence (ToE) Reference Implementation. This system is built in the context of:

- The Regulation (EU) 2020/1784 of the European Parliament and of the Council of 25 November 2020 on the service in the Member States of judicial and extrajudicial documents in civil or commercial matters (service of documents), and on
- The Regulation (EU) 2020/1783 of the European Parliament and of the Council of 25 November 2020 on cooperation between the courts of the Member States in the taking of evidence in civil or commercial matters (taking of evidence).

It describes the Reference Implementation's functionality allowing the management and exchange of requests for the following judicial instruments:

- Service of Documents (SoD)
- Taking of Evidence (ToE)

By using the RI, authorized users, assigned to appropriate roles, can fill in the available forms. They can then send these legal forms to Competent Authorities in other Member States. Users without appropriate roles do not have access to the RI and cases.

Figure 1: Home Page of the Reference Implementation without having roles assigned to the user

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

1.2. Intended Audience

The intended audience of this document is composed of the following stakeholders:

- DG JUST technical and business staff
- MS technical and business staff adopting/using the RI

1.3. Applicable documents

ID	Document title	Reference
[AD1]	The Regulation (EU) 2020/1784 of the European Parliament and of the Council of 25 November 2020 on the service in the Member States of judicial and extrajudicial documents in civil or commercial matters (service of documents).	Regulation (EU) 2020/1784
[AD2]	The Regulation (EU) 2020/1783 of the European Parliament and of the Council of 25 November 2020 on cooperation between the courts of the Member States in the taking of evidence in civil or commercial matters (taking of evidence).	Regulation (EU) 2020/1783

Table 3: Applicable documents

1.4. Documents conventions

Referenced documents are shown in brackets [].

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

2. GETTING STARTED

The aim of the Reference Implementation was to make it as intuitive and as mistake proof as possible, and to retain the same look and feel across the SoD and ToE instruments. Where a function enabling doing something is active, an appropriate button is visible and clickable. Where an action is permissible, an appropriate button is enabled. Where a function is inactive, that function button is disabled.

A user's role allows execution of certain actions depending on the context. As a result, some of the screenshots in this manual may have additional or missing icons and functionalities that practitioners are unlikely to experience in their real-life use. For example, the user role Supervisor can add and/or remove users to all cases in their authority. It is likely that relatively few users will have this role, but the user manual describes the addition and/or removal of users with screenshots of icons that may be invisible to most.

2.1. Accessing the RI

Below is an example on how to access the RI via the Keycloak route. It is likely, however, that each Member State will have a different national access method.

The RI can be accessed only by authorised and authenticated users. There is no public access page. One will need either a configured and enabled **Keycloak account** to access the Reference Implementation or **a national method that will be provided by national representatives.**

Follow the steps described below to access the RI via Keycloak:

- ① Enter the address of the Reference Implementation in your web browser.
- ② You will be redirected to the Keycloak page:

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Figure 2: Keycloak authentication screen

- ③ Sign in with your Keycloak credentials.
- ④ If you belong to only one authority, you will be automatically redirected to it.
- ⑤ If you are assigned to more than one authority, you will be redirected to the ‘Select Authority’ page, where you can choose the authority to which you would like to log in.

NOTE: There is an option to remember the authority choice so that the System automatically redirects you to the selected authority after entering your credential set. You can change this authority any time. The process for changing it is described in section: [3.1.3 Switching authority](#). After selecting ‘Remember my choice in this browser’, this screen will not appear again until you clear cookies in your browser.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Figure 3: Select Authority screen

Exceptions

- **Access to the RI is denied** - an error occurred during the connection to the RI in the following cases:
 - You have no access to the domain(s) and sub-domain(s) of Reference Implementation,
 - You have no right to access the page of the RI you wanted to access.
- **Error message** - if the provided login and password are incorrect, an error is raised by Keycloak. In that case, a message is displayed explaining that the authentication failed.

2.2. Authority types

Each authority which participates in SoD & ToE processes (creates and sends a case, receives a case and receives a case forward) needs to exist in CDB, have bodyType value equal to any of (*COURT*, *BAILIFF*, *NOTARY*) and have a correct pair of instrument and competence assigned. The following rules have been defined:

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

2.2.1. Creating a new request (the main form)

The RI restricts types of requests that can be created by authority according to instrument and competence. The following instrument and competence need to be assigned to an authority to enable request creation:

SODA - instrument: SD, competence: Transmitting Agency or Central Body

SODB - instrument: SD, competence: Transmitting Agency or Central Body

SODX – instrument: SD, competence: any

TOEA - instrument: TE, competence: RI - Requesting Court or Central Body

TOEL - instrument TE, competence: RI - Requesting Court or Central Body

TOEX – instrument: TE, competence: any

2.2.2. Selecting an executing authority at issuing side

During creating a new cross-border request (main form), the user selects an executing authority. The RI limits executing authorities according to the below rules (only authorities with appropriate instrument and competence can be selected in a search tool and can receive a new request):

SODA - instrument: SD, competence: Receiving Agency or Central Body

SODB - instrument: SD, competence: Assisting Authority

SODX – instrument: SD, competence: any

TOEA - instrument: TE, competence: Requested Court or Central Body

TOEL - instrument TE, competence: Competent Authority or Central Body

TOEX – instrument: TE, competence: any

2.2.3. Receiving a case forward

During sending a case forward, RI should limit executing authorities according to the following rules:

SODA - instrument: SD, competence: RI – Forwarded Authority

SODB - instrument: SD, competence: RI – Forwarded Authority

TOEA - instrument: TE, competence: RI – Forwarded Authority

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

TOEL - instrument TE, competence: RI – Forwarded Authority

NOTE: Forward was not implemented for SODX/TOEX cases.

2.3. User roles

The RI supports a role-based access control to ensure that access to online data and to the features of the system is limited only to user roles that have been previously granted such access rights. The set of access rights of a given user consists of all the combined access rights of all the roles granted to the respective user.

Feature	Author	Reviewer	Sender	Supervisor	Assigner	Dispatcher	Viewer/ Guest	Statistics Handler
Creating a case	Y	N	N	N	N	N	N	N
Viewing a case	Y	Y	Y	Y	Y	Y	Y	N
Editing the main form in 'Draft' and 'Ready to review' states	Y	Y	N	N	N	N	N	N
Editing case subject	Y	N	N	N	N	N	N	N
Deleting a case in draft status	Y	N	N	Y	N	N	N	N
Searching for a case	Y	Y	Y	Y	Y	Y	Y	N
Attaching/deleting files to any draft message to which this user has access	Y	Y	Y	Y	N	Y*	N	N
Exporting a case (to .zip file)	Y	Y	Y	Y	Y	Y	Y	N
Importing a case (from a .zip file)	Y	N	N	N	N	N	N	N
Printing the content of a case (form)	Y	Y	Y	Y	Y	Y	Y	N
Dispatching the case to another authority (by forward)	N	N	N	N	N	Y	N	N
Pushing the case to the next phase: Review	Y	N	N	N	N	N	N	N
Pushing the case to the next phase: Sign & Send	N	Y	N	N	N	N	N	N
Sending a case (the main form)	N	N	Y	N	N	N	N	N
Signing a case (the main form)	N	N	Y	N	N	N	N	N
Signing a sub-form (any form that is not a main form)	Y	Y	Y	Y	N	N	N	N
Sending a sub-form (any form that is not a main form)	Y	Y	Y	Y	N	N	N	N
Withdrawing a case (which has already been sent)	Y	Y	N	N	N	N	N	N
Sending service messages (conversation mechanism)	Y	Y	Y	Y	Y	Y	N	N
Acknowledging withdrawal - creating and sending a predefined message	Y	Y	Y	Y	N	N	N	N
Forwarding a case - creating and sending	Y	Y	Y	Y	N	Y	N	N
Rejecting a case	N	Y	Y	N	N	N	N	N
Sharing a case with Supervisor (+ Assigner) of another authority	N	N	N	Y	N	N	N	N
Reading permission for all cases (reading mode)	N	N	N	Y	Y (EA)	Y	N	N
Adding next applicant (SoD Form A, section 3)	Y	Y	N	N	N	N	N	N
Adding next claimant/petitioner (ToE Form A, section 4)	Y	Y	N	N	N	N	N	N
Adding representatives of the claimant/petitioner (ToE Form A, section 5)	Y	Y	N	N	N	N	N	N
Adding defendant/respondents (ToE Form A, section 6)	Y	Y	N	N	N	N	N	N
Adding representatives of the defendant/respondent (ToE Form A, section 7)	Y	Y	N	N	N	N	N	N
Pushing back the case to the previous phase: Draft	N	Y	N	N	N	N	N	N
Pushing back the case to the previous phase: Review	N	N	Y	N	N	N	N	N
Adding (assigning) users to a case/removing user's assignment	Y	N	N	Y	Y	N	N	N
Downloading files from attachments to all messages	Y	Y	Y	Y	Y	Y	Y	N
Closing a case/opening closed case	Y	Y	Y	Y	Y	Y	N	N
Deleting closed case	Y	Y	Y	Y	N	N	N	N
Commenting a case/editing existing comment/deleting comment	Y	Y	Y	Y	Y	N	N	N
Copying a case	Y	N	N	N	N	N	N	N
Access to all received cases	N	N	N	Y	Y	Y	N	N
Managing statistics	N	N	N	N	N	N	N	Y
Legend								
	User role should have this ability							
	User role should not have this ability							
EA	Executing Authority							

Figure 4: User roles – matrix

2.3.1. Functional user roles

The roles below correspond to operational user roles that can be defined in the RI and that a physical person could be granted. They are derived from the abstract roles defined above.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Author

The “Author” use role is responsible for editing cases using the RI and typically has the following access rights:

- Creating a case
- Viewing a case
- Editing the main form in ‘Draft’ and ‘Ready to review’ status
- Editing case subject
- Deleting a case in draft status (any user who has access to the case can do this)
- Searching for a case
- Attaching/deleting files to any draft form to which this user has access
- Exporting a case (to .zip file)
- Importing a case (from a .zip file)
- Printing the content of a case (form)
- Pushing the case to the next phase: Review
- Signing a sub-form (any form that is not a main form)
- Sending a sub-form (any form that is not a main form)
- Withdrawing a case (which has already been sent)
- Sending Service Message (conversation mechanism)
- Acknowledging withdrawal – creating and sending a predefined message
- Forwarding a case – creating and sending a case forward
- Adding next applicant (SoD Form A, section 3)
- Adding next claimant/petitioner (ToE Form A, section 4)
- Adding representatives of the claimant/petitioner (ToE Form A, section 5)

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

- Adding defendant/respondents (ToE Form A, section 6)
- Adding representatives of the defendant/respondent (ToE Form A, section 7)
- Adding/assigning users to a case/removing user's assignment
- Downloading files from attachments to all forms
- Closing a case/opening closed case
- Deleting closed case
- Commenting a case/editing existing comment/deleting comment
- Copying a case

Reviewer

The “Reviewer” user role is responsible for revising a draft form in the RI system before it is sent out. It typically has the following access rights:

- Viewing a case
- Editing the main form in ‘Draft’ and ‘Ready to review’ status
- Searching for a case
- Attaching/deleting files to any draft form to which this user has access
- Exporting a case (to .zip file)
- Printing the content of a case (form)
- Pushing the case to the next phase: Sign & Send
- Signing a sub-form (any form that is not a main form)
- Sending a sub-form (any form that is not a main form)
- Withdrawing a case (which has already been sent)
- Sending Service Message (conversation mechanism)
- Acknowledging withdrawal – creating and sending a predefined message

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

- Forwarding a case – creating and sending a case forward
- Rejecting a case
- Adding next applicant (SoD Form A, section 3)
- Adding next claimant/petitioner (ToE Form A, section 4)
- Adding representatives of the claimant/petitioner (ToE Form A, section 5)
- Adding defendant/respondents (ToE Form A, section 6)
- Adding representatives of the defendant/respondent (ToE Form A, section 7)
- Pushing back the case to the previous phase: Draft
- Downloading files from attachments to all forms
- Closing a case/opening closed case
- Deleting closed case
- Commenting a case/editing existing comment/deleting comment
- Copying a case

Sender

The “Sender” user role is responsible for signing and sending a case using the RI system. It typically has the following access rights:

- Viewing a case
- Searching for a case
- Attaching/deleting files to any draft form to which this user has access
- Exporting a case (to .zip file)
- Printing the content of a case (form)
- Sending a case (the main form)
- Signing a case (the main form)

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

- Signing a sub-form (any form that is not a main form)
- Sending a sub-form (any form that is not a main form)
- Sending Service Message (conversation mechanism)
- Acknowledging withdrawal – creating and sending a predefined message
- Forwarding a case – creating and sending a case forward
- Rejecting a case
- Pushing back the case to the previous phase: Review
- Downloading files from attachments to all forms
- Closing a case/opening closed case
- Deleting closed case
- Commenting a case/editing existing comment/deleting comment

Supervisor

The “Supervisor” user role is responsible for assigning cases within its own authority using the RI system and for sharing cases with Supervisors and Assigners in other authorities. “Supervisor” has access by default to all cases in the authority. It typically has the following access rights:

- Viewing a case
- Deleting a case in draft status (any user who has access to the case can do this)
- Searching for a case
- Attaching/deleting files to any draft form to which this user has access
- Exporting a case (to .zip file)
- Printing the content of a case (form)
- Signing a sub-form (any form that is not a main form)

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

- Sending a sub-form (any form that is not a main form)
- Sending Service Message (conversation mechanism)
- Acknowledging withdrawal – creating and sending a predefined message
- Forwarding a case – creating and sending a case forward
- Sharing a case with Supervisor (+Assigner) of another authority
- Reading permission for all cases (reading mode)
- Adding/assigning users to case/removing user's assignment
- Downloading files from attachments to all forms
- Closing a case/opening closed case
- Deleting closed case
- Commenting a case/editing existing comment/deleting comment
- Access to all received cases

Assigner

The “Assigner” user role is responsible for assigning users to cases within its own authority using the RI system. It typically has the following access rights:

- Viewing a case
- Searching for a case
- Exporting a case (to .zip file)
- Printing the content of a case (form)
- Sending Service Message (conversation mechanism)
- Reading permission for all cases (reading mode) – receiving side
- Adding/assigning users to case/removing user's assignment
- Downloading files from attachments to all forms

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

- Closing a case/opening closed case
- Commenting a case/editing existing comment/deleting comment
- Access to all received cases

Dispatcher

The “Dispatcher” user role is responsible for dispatching cases within its own Member State. It typically has the following access rights:

- Viewing a case
- Searching for a case
- Attaching/deleting files to any draft form to which this user has access (Dispatcher can only manage attachments for forwarding message)
- Exporting a case (to .zip file)
- Printing the content of a case (form)
- Sending Service Message (conversation mechanism)
- Forwarding a case – creating and sending a case forward
- Reading permissions for all cases (reading mode)
- Downloading files from attachments to all forms
- Closing a case/opening closed case
- Access to all received cases

Guest/Viewer

- Has no specific responsibility
- Viewing a case
- Searching for a case
- Exporting a case (to .zip file)

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

- Printing the content of a case (form)
- Downloading files from attachments to all forms

Statistics Handler

The “Statistics Handler” user role is responsible for reviewing the statistical indicators, downloading them and transmitting them to the central entity. It typically has the following access rights:

- Managing statistics (includes the visualizing of the consolidated statistical indicators information and also downloading consolidated statistical indicators in XML or MS Excel format)

2.3.2. Technical users

Technical users are defined outside the RI application. These technical users have specific functions that allow them to administrate and provide support of the system.

Once in use, the following user roles will need to be defined:

- **Technical administrator** to deal with technical aspects of the system, such as configuration of components (e-CODEX Connector, e-CODEX Gateway, proxy, Keycloak, database), continuous maintenance of configuration (pModes, firewalls, keystores, certificates), upgrades to the latest versions of the components.
- **Business administrator** to grant the needed access rights to end users (practitioners) in the system.

2.4. Electronic communication with Authority in another Member State

As Member States begin to use the Reference Implementation, Authorities will be connected and able to communicate electronically. If an Authority exists in CDB but has no eCodexPartyId parameter assigned, the ‘eCODEX’ icon will be presented to the user. Because of the missing configuration, the user will not be able to send any message to this Authority.

---------------	--	-----------------

3. COMMON LAYOUT AND NAVIGATION

Following successful log in to the RI, you can see the content of the RI, and its persistent navigational elements:

- ① The header
- ② The top bar
- ③ The left-hand menu

Figure 6: Common Layout and Navigation

3.1. The header

In the header, in addition to the Commission logo, the site name and the Member State flag, you can find the following actionable elements: a language switch, information about user's profile and log out button.

3.1.1. Select desired language of the RI

- ① Click the language switch, located at the top right corner of the header:

Figure 7: Language switch icon

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

② Select the language from a pop-up window:

Select language 2

български (bg)	čeština (cs)
dansk (da)	Deutsch (de)
eesti keel (et)	ελληνικά (el)
English (en)	español (es)
français (fr)	hrvatski (hr)
italiano (it)	latviešu valoda (lv)
lietuvių kalba (lt)	magyar (hu)
Malti (mt)	Nederlands (nl)
polski (pl)	português (pt)
română (ro)	slovenčina (sk)
slovenščina (sl)	suomi (fi)
svenska (sv)	

Figure 8: Select language

The language of the RI will switch to your selected language.

NOTE: Due to some languages not being delivered yet, this may cause errors in Reference Implementation.

3.1.2. User's Profile

At the top right corner, you can find information about the logged in user.

① Click **the profile picture** to display additional buttons:

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Figure 9: User's profile

- See my profile
- Switch authority
- Logout

② When selecting ‘**See my profile**’, one will see the ‘User details’ pop-up window displaying the name of the authority which the user belongs to, and the roles they have been assigned to, as shown in the picture below.

Figure 10: User details

3.1.3. Switching authority

At the top right corner, you can find information about the logged in user.

① Click **the profile picture** to display additional buttons:

Figure 11: Switch authority selection

② Click **Switch authority** from a dropdown menu.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Then the System displays ‘Select Authority’ page.

The screenshot shows the 'SELECT AUTHORITY' interface. At the top, there's a header with the European Commission logo and 'JUstice Digital EXchange System (JUDEX)'. A user profile 'Filip Wszystkowy' is visible in the top right. The main area is titled 'SELECT AUTHORITY' and contains a search bar with a 'Filter' button. Below this, there are two columns: 'CRIMINAL' and 'CIVIL'. The 'CRIMINAL' column has a 'Name' label and three radio button options: 'Sąd Rejonowy dla miasta stołecznego Warszawy w Warszawie', 'Sąd Rejonowy dla Warszawy Pragi-Południe w Warszawie', and 'Sąd Rejonowy dla Warszawy Pragi-Północ w Warszawie'. The 'CIVIL' column also has a 'Name' label and one radio button option: 'Sąd Rejonowy dla miasta stołecznego Warszawy w Warszawie'. At the bottom left is a '< Cancel' button. At the bottom right is a checkbox labeled 'Remember choice in this browser' and a 'Select' button. Green circles with numbers 3 and 4 are overlaid on the 'CIVIL' column and the 'Select' button respectively.

Figure 12: Select Authority screen

- ③ Select appropriate Authority
- ④ Click **Select**.

When the switching authority process succeeds, you will be transferred to the selected Authority.

NOTE: If you select ‘Remember choice in this browser’ here in Switch authority option, you will be automatically redirected to the authority which you are selecting every time you log in. If you want to restore the authority selection page during login, please clear your cookies in your browser, or select authority you want to log in to automatically each time from this position.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

3.1.4. Logout/Exit the RI

Figure 13: Logout/Exit the RI

If you want to exit the RI, the most secure way is to log out from your account:

- ① Click **your profile picture** at the top bar:
- ② Click **Logout** from a dropdown menu.

When the logout process succeeds, you will experience a successful logout and the RI closure.

3.2. The top bar

At the top bar, you can find additional actionable functionalities:

- Support information
- Notification bell
- Automatic translation

3.2.1. Display support information

- ① Click the **question mark** icon located on the right side of the top bar.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Figure 14: Support information

The information box about how to contact your national support will appear. Click anywhere outside the information box to close the information.

Figure 15: Contact Support

3.2.2. Notification bell

- ① Click the **Notification bell** icon located on the right side of the top bar.

This icon also features a red circle with a number relating to the number of notifications available.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Figure 16: Notification bell

When the Bell is selected, all open actions and unread messages are listed.

If one of the notifications is selected by the mouse pointer (i.e., action ‘read’), the number will decrease by one and the user will be redirected to that case which the selected notification refers to.

② Alternatively, all notifications can be cleared by selecting ‘Clear notifications’.

Figure 17: Notifications

Users are also able to choose the type of notifications they want to receive.

③ Select settings icon.

The following pop-up window should appear:

Notifications

[Close >](#)

Group	☒ All	☒ Bell	☒ Email

Assign users to the case	☒	☒	☒

Apply changes

Figure 18: Notifications settings

From this perspective, the user can check/uncheck all the types of notifications listed in the picture above that a user wants to receive.

3.2.2.1. E-mail notification

For a given user to receive the e-mail notification, two conditions must be met.

1. The given user’s e-mail address must be added in Keycloak:

The screenshot shows the Keycloak administration console. On the left is a sidebar with navigation options: Manage, Clients, Client scopes, Realm roles, Users (selected), Groups, Sessions, Events, Configure, Realm settings, Authentication, Identity providers, and User federation. The main area displays the 'test_pll' user details. The 'Email' field, containing 'test_email_address@ec.europa.eu', is highlighted with a yellow background. Other visible fields include ID, Created at, Required user actions, Username, Email verified (toggle), First name, and Last name. At the bottom of the form are 'Save' and 'Revert' buttons.

Figure 19: Adding e-mail address in Keycloak

2. Make sure that the e-mail checkboxes in the notification's settings in the RI are selected.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

3.3. The left-hand menu

In the navigation menu you can find links to the main RI sections:

3.3.1. Hide/unhide left menu

Get more space for the content of the page by hiding the menu:

- ① Click an icon located on the left side of the top bar.

Figure 20: Hide/unhide left menu

- ② The menu will collapse. If you want to unhide the full menu again, click the same icon again.

Figure 21: Hide left menu

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

3.3.2. Start new request

(Please note that the ‘Start new request’ button is only visible to users with roles that can initiate a new request who are assigned to authorities with appropriate instrument and competence. If a role cannot initiate a new request or authority does not have a competence to create and issue a request, this button will not be available to the user).

3.3.3. Dashboard

This view appears right after logging in.

① On this page, the user will find all basic issues divided to Issued requests, Received requests, and Drafts.

② Additionally, all users, except the Guest role, see ‘My tasks’ table on the right side of the screen, where they can see the cases to which they are assigned.

NOTE: Assigner, Supervisor, Dispatcher, Guest, and Statistics handler do not see any tasks in My tasks label.

Figure 22: User's dashboard

3.3.4. Cases

Cases are divided to several different categories depending on their case advancement status:

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

- ISSUED REQUESTS - in this section, the user sees all cases that are in the Issued status and to which they are assigned/have access. When a case is sent to an Executing Authority, it is moved from DRAFTS to a list of ISSUED REQUESTS. To access the list:

① Click **Issued requests** in the menu.

Figure 23: Issued requests

An issued case can be accessed only by:

- Users who are assigned to that case
- Privileged users with the ‘Supervisor’ and ‘Assigner’ role.

You can also find deadlines list for all issued cases in ‘Deadlines’ tab.

Figure 24: Deadlines tab

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

- RECEIVED REQUESTS - in this part, the user sees all cases that are in the Received status and to which they are assigned/have access. When a case is received from another Competent Authority, it is visible on a list of RECEIVED REQUESTS. To display the list:

Figure 25: Received requests

- DRAFTS - in this part, the user sees all cases that are in draft status and to which they are assigned/have access. Cases which have not yet been sent to other Competent Authorities are stored in the list of drafts.

NOTE: Kindly remember that the **draft stage** is the status of entire case from its creation to the moment of sending. All statuses that the user will see, e.g., in the Overview tab, will be presented in capital letters.

Figure 26: Draft cases

A draft case can be accessed only by:

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

- The ‘Author’ of a draft (a user who created that case), as long as the case is still assigned to that user
- Users with the ‘Supervisor’ role
- Other users (such as Reviewer, Sender or Guest) who have been assigned to that case by a ‘Supervisor’ or ‘Assigner’.

3.3.5. Downloads

This section contains files that have been downloaded by users using the Download button in the specific case view. To see more details please go to chapter ‘[Download PDF and Print](#)’.

4. SEARCH FOR A CASE

Figure 27: Search for a case

- ① Open a list of draft/issued/received case requests in the menu, which will indicate the context of a search.
- ② Enter full or partial **title** or **reference number** or **National Case number** of the case you are searching for.
- ③ Select the type of a case you are searching for.
- ④ Click **Search**.
- ⑤ Matching search results from: Title or Reference Number will be returned.

Figure 28: 'Search filters' button

Optionally, you can filter the list of draft/issued/received requests by applying filters:

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

⑥ Click **Show search filters** to expand the panel.

Figure 29: Search criteria fields

⑦ Select filtering options on the panel.

⑧ Click **Apply**.

⑨ Results will be returned.

⑩ You can filter out cases that are not urgent using the embedded filter ‘Show only urgent cases’.

⑪ To collapse the expanded view, click **Hide search filters**.

4.1. View closed cases

If a user wants to view closed cases, whether issued or received, they should choose the relevant category from the left-hand menu to see the type of case they are interested in.

Figure 30: Searching for closed cases

① Select ‘**Show search filters**’

Figure 31: Applying filters to search for closed cases

② Select Closed checkbox and then ③ ‘Apply’ button.

All Closed cases will be shown.

To narrow down the search criteria further, additional search filters can be added such as to/from which State, between dates, or with a specific title or National Case Number.

4.2. Clear all filters

Figure 32: ‘Clear all filters’ button

① Click clear all filters

② Click **Apply** button.

A list will be refreshed to a default state.

5. VIEW A CASE

To view details of a case:

Figure 33: Viewing case details

① Click an individual row from a list of Issued/Received requests or Drafts.

Figure 34: Viewing case details: Overview tab

② A case with details will be displayed. Click through available tabs to view available information.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

6. CASE OWNERSHIP

Each case marked with a Global Case ID can have many local instances.

The first instance of the case appears in the moment of a new case creation. This instance is owned by the Issuing Authority to which the creating user with an Author role belongs.

Comments added to the Case are never sent to another Authority. They are accessible only locally, to users of one Case instance.

Every time the Case is being received by a Competent Authority, either from another country, or within one Member State via forward from another Competent Authority, a **new Case instance** is being created, owned by a Competent Authority that received the Case.

Please remember that communication between Competent Authorities via Service Messages (free form messages) is always two-way only, never multi-party. In case we have two Executing Authorities that can communicate with the Issuing Authority, they do it independently as there is no way of direct communication between the two executing authorities, because each of them has a separate Case Instance. Service Messages can be exchanged only cross-nationally (no internal communication within one Member State available).

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

7. SERVICE OF DOCUMENTS

7.1. Introduction

A Service of Documents (SoD) is a cross-border service of judicial and extrajudicial documents in civil or commercial matters in the Member States in accordance with [AD.1].

The SoD may also be issued for assistance in address enquiries where the address of the person to be served with the judicial or extrajudicial document in another Member State is not known.

7.1.1. Overview

The process between creating a new case and sending it occurs in the **Internal Workflow**. During that process, the case is accessible only for authorized users from your Issuing Authority.

When all steps of Internal Workflow are completed, the case can be sent to a chosen Executing Authority.

The process of communication between Issuing Authority and Executing Authority occurs in the **External Workflow**.

7.1.2. High Level End to End Process

1. A user with Author role in a competent authority creates the SoD.
2. The SoD request is reviewed by a user with Reviewer role.
3. The SoD is being signed and sent by a user with Sender role to an appropriate Executing Authority in another Member State.
4. Communication between Issuing and Executing Authorities takes place.
5. The receipt of the SoD request should be acknowledged within seven days.
6. A decision is provided within thirty days of SoD receipt.
7. The case can be withdrawn by Issuing Authority, and/or forwarded by Executing Authority to another Competent Authority for full SoD execution.

7.2. Create SoD

7.2.1. Initiate a request creation

7.2.1.1. Starting a new case - SODA

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Steps below are only applicable to users with 'Author' role.

To begin a process of requesting for service of documents, create a new case.

Figure 35: SoD - 'Start new request' button

- ① Click **Start new request** button in the left-hand menu.

Figure 36: SoD - Selecting the request type and entering the request subject

- ② A pop-up window will appear. Select SODA from the **Type of request** dropdown list.
- ③ Fill in **Subject of request** and click **Continue**. If you wish to cancel, click 'x' button at the top right corner of the pop-up.

The screenshot shows the 'SODA test' form in the JUDEx system. The form is divided into several sections: 'TRANSMITTING AGENCY', 'RECEIVING AGENCY', 'APPLICANT(S)', 'ADDRESS', 'METHOD OF SERVICE', 'DOCUMENT TO BE SERVED', 'LANGUAGE OF INFORMATION TO THE ADDRESSEE ABOUT THE RIGHT TO REFUSE THE DOCUMENT', 'A COPY OF THE DOCUMENT TO BE SERVED WITH THE CERTIFICATE OF SERVICE', 'REASONS FOR NOT TRANSMITTING THROUGH THE INFORMATIONAL INFO-IT SYSTEM', and 'SIGNATURE AND DATE'. The 'RECEIVING AGENCY' section is highlighted, and a green circle with the number 3 points to the 'Choose authority' button.

Figure 39: SoD Form A: Selecting an Executing Authority

③ Click **Choose Authority** button.

The screenshot shows the 'SEARCH RESULTS' section of the SoD Form A interface. It includes a 'Please enter required params:' section with a 'postal code: *' field. Below this is a 'Search' button. A green circle with the number 4 points to the 'Search' button. The search results area shows 'No Search result'.

Figure 40: SoD Form A: Searching for a receiving agency: business parameters

④ To find and select the correct authority, the user needs to provide correct business data according to the business rules required by the Executing State. At the example above, the user should enter a postal code and click **Search** button.

The authority search tool will display a list of all Executing Authorities in the chosen Member State which have the right pair of instrument and competence to accept this type of request.

- ④ Click **Select**.

After choosing **Executing Authority**:

5. Type a free form message (mandatory field) and attach documents (optional).

NOTE: SODX case can be sent only by a user with Sender role. If the user with an Author role who initiated the SoD does not have additional Sender role, then the Author should assign a Sender or ask Supervisor for adding the Sender.

The SODX does not have SIGNATURE AND DATE section. A user can attach a signed document via **Attach Document** button from the action bar (optional).

The SODX cannot be forwarded or withdrawn.

7.2.1.7. Authority that accepts/does not accept electronic communication

As Member States begin to use the Reference Implementation, more and more Authorities will be connected and able to communicate electronically. However, there will be authorities in the system that will not be able to send and receive requests/messages via the Reference Implementation. These authorities will be clearly distinguished from those that can.

These authorities should be contacted via the traditional route such as registered mail.

Figure 56: A visual representation of an authority that is unable to receive electronic communication via the Reference Implementation

① A visual representation of an **authority** that is **unable to receive electronic communication** via the Reference Implementation.

7.2.1.8. Mandatory fields

All mandatory fields must be completed before the SoD can be electronically submitted. These mandatory fields are checked by a validation check. This validation consists of set of syntactical and semantical validations of the data contained in the form. A check is performed to verify that all required (mandatory) fields of Form A or Form B have been filled. You can **trigger validation manually** at any time, while you edit a Form A or Form B.

To trigger validation:

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Figure 57: SoD Form B validation

① View a case and select **Form A/ Form B** tab.

② Click **Validation check**.

Figure 58: SoD Form B mandatory fields

③ Validation will be performed and the toast notification with warning or success will be displayed. If there are validation errors, fields and sections containing errors will be highlighted red.

7.2.1.9. Pushing a case to the next step

Steps below are applicable to users with 'Author' role.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Figure 59: SoD Form A send to review

① In the edited case click **Workflow > Send to review**:

- A toast notification (success) will show up at the bottom.
- A new timestamp: 'Ready to review' will show up on the **Event & Message Timeline**.
- If a user has no other roles except Author, the workflow button will be disabled, as there are no other actions that can be performed.

7.2.1.10. Review

The next step in the workflow of a case is to review it and mark it as 'Positively Reviewed' or return it for amendment, or to reject completely if needed. Edition of the form is also possible.

Steps below are applicable to users with 'Reviewer' role.

The screenshot shows the JUDEX interface for a case titled 'SODA test'. The left sidebar contains navigation options: Start new request, DASHBOARD, ISSUED REQUESTS, RECEIVED REQUESTS, DRAFTS, STATISTICS, and DOWNLOADS. The main panel displays case details for 'Form A' (dated 25/10/2024 11:15). The status is 'READY TO REVIEW'. The 'Workflow' button is highlighted with a green circle and the number 1. The case details include: ISSUING STATE (Republic of Poland), EXECUTING STATE (Czech Republic), ISSUING AUTHORITY (CA-CIV-1 CIVIL Ministerstwo Sprawiedliwosci (Departa...)), ACCEPTED LANGUAGES (CS, EN, SK), RECEIVING AGENCY (CA-CIV-1 Krajské státní zastupitelství Ústí nad Labem), and STATUS (READY TO REVIEW). The 'LINKED CASES' section shows 'No cases linked'. The 'ASSIGNED USERS' section is at the bottom.

Figure 60: SoD Form A: Accepting review

① In a reviewed case click **Workflow > Accept review**:

- A new timestamp: 'Positively Reviewed' will show up on the **Event & Message Timeline**.
- If user has no other roles except Reviewer, the workflow button will be disabled, because there are no other actions for you to perform.

The screenshot shows the JUDEX interface for the same case 'SODA test'. The status has changed to 'POSITIVELY REVIEWED', which is highlighted with a green box. The 'Workflow' button is now disabled. The case details remain the same, but the 'STATUS' field now shows 'POSITIVELY REVIEWED'. The 'LINKED CASES' section still shows 'No cases linked'. The 'ASSIGNED USERS' section is at the bottom.

Figure 61: SoD Form A: 'Positively reviewed' status

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Alternatively:

- A. Click **Workflow > Return for amendment** and enter optional message - the case will go back to a draft editable by Author role. The Author will have to make amendments and click again **Workflow > Send to review**.
- B. Click **Workflow > Reject** – the case will be rejected, and no more actions of Workflow buttons can be performed by users.
- C. Reviewer is also able to edit a case.

7.2.1.11. Signature step

In the next step of the workflow, a user with the Sender role needs to attach the signed document to the Form. Please note that at this stage, a user the Sender role is not able to edit the case.

Steps below are applicable to users with 'Sender' role.

The screenshot shows the JUDEX interface for a case titled 'SODA test'. The left sidebar contains navigation options: Start new request, DASHBOARD, ISSUED REQUESTS, RECEIVED REQUESTS, DRAFTS, STATISTICS, and DOWNLOADS. The main content area displays case details for 'Form A' (25/10/2024 11:15). The 'Workflow' dropdown menu is open, showing options: Preparation for signature (highlighted with a green circle and '1'), Reject, and Return for amendment. The case details include: ISSUING STATE (Republic of Poland), EXECUTING STATE (Czech Republic), ISSUING AUTHORITY (CA-CIV-1 CIVIL Ministerstwo Sprawiedliwosci (Departa...)), EXECUTING AUTHORITY (CA-CIV-1 Krajské státní zastupitelství Ústí nad Labem), and STATUS (POSITIVELY REVIEWED). The 'LINKED CASES' section shows 'No cases linked'. The 'ASSIGNED USERS' section has buttons for 'Display roles' and 'Edit users'.

Figure 62: SoD Form A preparation for signature

- ① In a reviewed case click **Workflow > Preparation for signature**. A warning pop-up with languages accepted by a Receiving State is displayed.

- A. Click **Workflow > Return for amendment** - the case will go back to Reviewer step in which the form can be edited by the user with Reviewer role. The Reviewer will have to make amendments and click again **Workflow > Complete**.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

B. Click **Workflow > Reject** – the case will be rejected, and no more actions of Workflow buttons can be performed by users.

Figure 63: SoD Form A signing

② After the user clicks **Sign** in Workflow, ③ then the RI displays a pop-up window. At this step, the user has the option to choose whether they want to sign the document in PAdES format or select other type of signature (non-PAdES format).

---------------	--	-----------------

Figure 77: Error message during the wrong PDF upload

④ If the signature is not positively verified or a wrong file has been selected for upload, an error message will appear. Check that you have logged in to the correct web browser.

Remarks: The status of a case will change to ‘Signed’.

Sending Form A:

The last step of internal workflow is to send the case to the selected Executing Authority.

Steps below are applicable to users with ‘Sender’ role.

① Open a case.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Figure 78: Sending SoD Form A

② Click **Workflow** > **Send**

③ System sends Form A and confirmation message appears.

Figure 79: Sending SoD Form A: Confirmation message

The system will perform a validation check. If validation is performed successfully, the case will be sent, and the status will change to 'Issued'.

Exceptions: Sending error – in this situation a user with Sender role will be able to resend a request to Executing Authority using a **Resend** button on the Timeline.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

After sending a SODA request to an Executing Authority, before receiving a reply, the Workflow menu of an Issued Request will allow to perform the following actions:

- Send other information
- Close a case / Reopen a case
- Withdrawal

After sending a SODB request to an Executing Authority, before receiving a reply, the Workflow menu of an Issued Request will allow to perform the following actions:

- Send other information
- Close a case / Reopen a case
- Withdrawal

Please keep in mind, that the content of the Workflow menu is changing according to the status of the SoD.

The status of the case will be changed to WITHDRAWN.

7.5. Execute SoD

7.5.1. Acknowledgement of Receipt SODA

When Executing Authority receives SODA request, system automatically sends partially completed Form D.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Sending manual (fully completed) confirmation of the receipt (Form D) to the Issuing State is divided to two (2) steps:

Step 1. Creating Form D:

- ① View the incoming request.

The screenshot shows the JUDEX interface for a case titled 'SODA test'. The left sidebar contains navigation options: Start new request, DASHBOARD, ISSUED REQUESTS, RECEIVED REQUESTS, DRAFTS, STATISTICS, and DOWNLOADS. The main area displays case details for 'SODA-PL-CZ-2024-11-04-0001-1'. It includes tabs for Overview, Form A, Form D, Event & Message Timeline, and eTranslations. The 'Overview' tab is active, showing fields for Issuing State (Republic of Poland), Issuing Authority (CA-CIV-1 CIVIL Ministerstwo Sprawiedliwosci), Executing State (Czech Republic), Accepted Languages (CS, EN, SK), and Receiving Agency (CA-CIV-1 Krajské státní zastupitelství). The status is 'RECEIVED'. A dropdown menu is open, showing options like 'Create Form D', 'Create Form E', 'Create Form F', 'Forward + Create Form G', 'Create Form K', 'Generate Form L PDF', 'Send other information', and 'Close a case'. A green circle '2' highlights the 'Create Form D' option.

Figure 91: Creating SoD Form D: Acknowledgement of receipt

- ② Click **Workflow > Create Form D**.

The screenshot shows the JUDEX interface for the same case 'SODA test'. The 'Form D' tab is now selected, and the 'ACKNOWLEDGEMENT OF RECEIPT' form is displayed. The form includes fields for '1. DATE OF RECEIPT' and 'SIGNATURE AND DATE'. It also contains a text area with the following text: 'Article 10(1) of Regulation (EU) 2020/1784 of the European Parliament and of the Council of 25 November 2020 on the service in the Member States of judicial and extrajudicial documents in civil or commercial matters (service of documents) (OJ L 405, 2.12.2020, p. 40.)'. Below this text, it states: 'This acknowledgement of receipt should be sent through the decentralised IT system or otherwise as soon as possible after receipt of the document and in any event within seven days of receipt.(2)'. A green circle '3' highlights the 'Form D' tab, and a green circle '4' highlights the 'Save' button at the bottom right.

Figure 92: SoD Form D draft version displayed

- ③ Form D draft version will be created and displayed.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

④ While filling data in Form D sections, remember to save your data.

Sending Form D:

Figure 93: SoD Form D: Acknowledgement of receipt – send button

Figure 97: SoD Form D: Send

⑤ Click Send button

Figure 98: SoD Form D: case sent

Status Sent will be displayed in a form tab and in **Event & Message Timeline** tab.

7.5.2. Acknowledgement of Receipt SODB

For SODB (Request to determine the address of the person to be served) there is no dedicated form for acknowledging receipt.

To check if the request was received by the Executing Authority, user at Issuing Authority needs to perform 2 steps:

- ① Go to the **Event & Message timeline** tab in the request.
- ② Click on 'Service of Documents (SODB)'. Form details with information about the receipt will be displayed.

7.5.3. Provide Decision

7.5.3.1. SODA – Form F

Return of SODA covers situations provided under Article 10(3) of the Regulation (EU) 2020/1784 of the European Parliament and of the Council [AD1]:

‘Where the request for service is manifestly outside the scope of this Regulation or where non-compliance with the formal conditions required makes service impossible, the request and the documents transmitted shall be returned to the transmitting agency upon receipt, without undue delay, together with a notice of return, using form F in Annex I.’

Figure 100: SODA: Create Form F

- ① Click **Workflow > Create Form F**.

Figure 101: SODA: Form F draft version

- ② Form F draft version will be created and displayed.
- ③ While filling data in Form F sections, remember to save your data.

---------------	--	-----------------

Sending Form F:

The screenshot shows the JUDEX interface for a case titled 'Test_17102024'. The left sidebar contains navigation options: Start new request, DASHBOARD, ISSUED REQUESTS, RECEIVED REQUESTS, DRAFTS, STATISTICS, and DOWNLOADS. The main area displays a tabbed interface with 'Form F' selected. A dropdown menu is open, showing the 'Send to review' option (marked with a green circle 1). Other options in the menu include 'Create Form D', 'Create Form E', 'Create Form F', 'Forward + Create Form G', 'Create Form K', 'Generate Form L PDF', 'Send other information', and 'Close a case'. The main content area shows a 'NOTICE OF RETURN OF REQUEST AND DOCUMENT' form with fields for 'REASON FOR RETURN' and 'SIGNATURE AND DATE'. The text of the notice is visible, including a reference to Article 10(3) of Regulation (EU) 2020/1784.

Figure 102: SoD Form F: send to review option

- 1 Click **Send to review** button from Workflow.

The screenshot shows the JUDEX interface for the same case 'Test_17102024'. The 'Form F' tab is still selected. A dropdown menu is open, showing the 'Accept Review' option (marked with a green circle 2). Other options in the menu include 'Reject', 'Return for amendment', 'Create Form D', 'Create Form E', 'Create Form F', 'Forward + Create Form G', 'Create Form K', 'Generate Form L PDF', 'Send other information', and 'Close a case'. The main content area shows the same 'NOTICE OF RETURN OF REQUEST AND DOCUMENT' form.

Figure 103: SoD Form F: accept review option

- 2 The user with Reviewer role should select **Accept Review** to move it to the next step (Reject and Return for amendment are also the available options). The Assigned can also edit the case.

Figure 104: SoD Form F: preparation for signature

③ The user with Sender role should select **Preparation for signature** to sign and upload the signed document (other available options are: Reject and Return for amendment). The Sender cannot edit the case.

Figure 105: Signing SoD Form F

④ The user with Sender role should select **Sign**.

⑦ Close the confirmation pop-up.

Figure 109: SoD Form F 'Send'

⑧ Send the form by using Send button from a Workflow dropdown list.

7.5.3.2. SODA – Form K

Executing Authority sends Form K to the Issuing Authority to communicate the result of processing SODA request. The following results are possible:

- service of documents has been successfully completed;
- or it was not possible to effect service within one month of receipt;

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

- or document was refused by the recipient;
- or reason for non-service of document shall be provided.

To create Form K, an assigned user should:

① Click **Workflow > Create Form K**.

Figure 110: SODA: Workflow dropdown list – Create Form K

Figure 111: SODA: Form K draft version

- ② Form K draft version will be created and displayed.
- ③ While filling data in Form K sections, remember to save your data.

---------------	--	-----------------

Sending Form K:

The screenshot shows the JUDEX interface with the 'Form K' tab selected. A green circle with the number '1' highlights the 'Send to review' button in the top right corner. A dropdown menu is open, showing options: 'Create Form D', 'Create Form E', 'Create Form F', 'Forward + Create Form G', 'Create Form K', 'Generate Form L PDF', 'Send other information', and 'Close a case'. The main form area displays 'CERTIFICATE OF SERVICE OR NON-SERVICE OF DOCUMENTS' with fields for 'Done at:' (wroclaw) and 'Date:' (18/10/2024). The left sidebar contains navigation links like 'Start new request', 'DASHBOARD', 'ISSUED REQUESTS', 'RECEIVED REQUESTS', 'DRAFTS', 'STATISTICS', and 'DOWNLOADS'.

Figure 112: SoD Form K: send to review

① Click **Send to review** button from Workflow.

The screenshot shows the JUDEX interface with the 'Form K' tab selected. A green circle with the number '2' highlights the 'Accept Review' button in the top right corner. A dropdown menu is open, showing options: 'Accept Review', 'Reject', 'Return for amendment', 'Create Form D', 'Create Form E', 'Create Form F', 'Forward + Create Form G', 'Create Form K', 'Generate Form L PDF', 'Send other information', and 'Close a case'. The main form area displays 'CERTIFICATE OF SERVICE OR NON-SERVICE OF DOCUMENTS' with a text area containing legal references: 'Articles 11(2), 12(4) and 14 of Regulation (EU) 2020/1784 of the European Parliament and of the Council of 25 November 2020 on the service in the Member States of judicial and extrajudicial documents in civil or commercial matters (service of documents) (OJ L 405, 2.12.2020, p. 40.)'. The left sidebar contains navigation links like 'Start new request', 'DASHBOARD', 'ISSUED REQUESTS', 'RECEIVED REQUESTS', 'DRAFTS', 'STATISTICS', and 'DOWNLOADS'.

Figure 113: SoD Form K: accept review

② The user with Reviewer role should select **Accept Review** to move it to the next step (Reject and Return for amendment are also the available options). The Assigned can also edit the case.

The screenshot displays the JUDEX interface for a case titled 'Test_17102024'. The left sidebar contains navigation options: Start new request, DASHBOARD, ISSUED REQUESTS, RECEIVED REQUESTS, DRAFTS, STATISTICS, and DOWNLOADS. The main area shows a tabbed interface with 'Form K' selected, dated 18/10/2024 13:41. A green success message states: 'Success The request has been successfully reviewed'. A dropdown menu is open, showing options: Preparation for signature (selected), Reject, Return for amendment, Create Form D, Create Form E, Create Form F, Forward + Create Form G, Create Form K, Generate Form L PDF, Send other information, and Close a case. The form content includes a 'CERTIFICATE OF SERVICE OR NON-SERVICE OF DOCUMENTS' section with fields for RESULTS OF SERVICE OR NON-SERVICE OF DOCUMENTS and SIGNATURE AND DATE. The right section contains legal references and a note about service effecting.

Figure 114: SoD Form K: preparation for signature

③ The user with Sender role should select **Preparation for signature** to sign and upload the signed document (other available options are: Reject and Return for amendment). The Sender cannot edit the case.

This screenshot shows the same JUDEX interface as Figure 114, but the dropdown menu is open to the 'Sign' option. The 'Form K' tab is still selected. The success message remains. The form content is identical to the previous figure, showing the 'CERTIFICATE OF SERVICE OR NON-SERVICE OF DOCUMENTS' section and the right-hand legal references.

---------------	--	-----------------

7.5.4.2. SODA – Form H

When appropriate receiving agency receives a forwarded request, it should send Form H to the Issuing Authority.

The screenshot shows the JUDEX interface for creating a SODA test. The left sidebar contains navigation options: Start new request, DASHBOARD, ISSUED REQUESTS, RECEIVED REQUESTS, DRAFTS, STATISTICS, and DOWNLOADS. The main area displays the 'SODA test' form for 'SODA-PL-CZ-2024-10-25-0002-1'. The 'Form A' tab is active, showing a 'REQUEST FOR SERVICE OF DOCUMENTS' section with fields for transmitting agency, receiving agency, applicant(s), addressee, method of service, document to be served, and language of information. A yellow box highlights this section. A green circle with the number 1 points to the 'Create Form H' option in the workflow menu on the right. The workflow menu also includes options for Create Form E, Create Form F, Forward + Create Form G, Create Form K, Generate Form L PDF, Send other information, Close a case, and Non PADES signed document. The bottom right shows a 'Token.xml' file created at 29/10/2024 13:11 with an 'Antivirus status: ✓'.

Figure 138: SoD Form H creation

- ① Select **Create Form H** from Workflow.

The screenshot shows the JUDEX interface for creating a SODA test. The left sidebar contains navigation options: Start new request, DASHBOARD, ISSUED REQUESTS, RECEIVED REQUESTS, DRAFTS, STATISTICS, and DOWNLOADS. The main area displays the 'SODA test' form for 'SODA-PL-CZ-2024-10-25-0002-1'. The 'Form H' tab is active, showing an 'ACKNOWLEDGEMENT OF RECEIPT BY THE APPROPRIATE RECEIVING AGENCY HAVING TERRITORIAL JURISDICTION TO THE TRANSMITTING AGENCY' section with fields for date of receipt and signature and date. A yellow box highlights this section. A green circle with the number 2 points to the 'Send' button in the action bar. The action bar also includes buttons for Get PDF / Print, Attach Document, Form Translation, Validation check, and a 'DRAFT' button. The bottom right shows an 'Auto save' status and a 'Save' button.

- ③ Complete and send the withdrawal acknowledgement by clicking **Send** on the action bar.

The process of creating withdrawal acknowledgement is the same for SODA and SODB.

7.6. Deadlines execution

7.6.1. Deadlines execution SODA

This feature shows whether:

1. Manual SoD Form D (Acknowledgement of receipt) or SoD Form H (Acknowledgement of receipt by the appropriate receiving agency having territorial jurisdiction to the transmitting agency) has been sent within seven days of the SoD Form A receipt.
2. SoD Form K (Certificate of service or non-service of documents) has been sent within thirty days of the SoD Form A receipt.

7.6.2. Deadlines execution SODB

Currently, no deadlines for SODB instrument implemented.

7.6.3. Viewing deadline information in the Dashboard tab

Figure 153: Viewing deadline information in the Dashboard tab

① Cases with an overdue deadline (one or many) are marked with a red dot. A deadline that expires on today's date is also leading to the case being displayed with a red dot.

7.6.4. Viewing deadline information in the Issuing Requests tab

Two tabs provide information:

- ① My Issued Requests: list of all issued open cases.
- ② Deadlines: list of all deadlines for a case, both upcoming and overdue.

Figure 154: Viewing deadline information in the Issuing Requests tab

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

My Issued Requests Tab: similarly to the dashboard, overdue cases or cases for which a deadline is due today are marked with a red dot.

Click **Deadlines**: a list of all overdue and upcoming deadlines is displayed by default. The overdue or those with a deadline due today are marked in red.

Figure 155: Deadline information in the Issuing Requests tab

- ① Due date: displays the deadline date.
 - ② Expected Response: indicates what response subject to a deadline is expected.
- Filtering possibilities are provided to narrow down the list of cases displayed.
- ③ Expected Response: 3 tick boxes allow the search on a specific deadline. Depending on the selection, a particular subset of cases is returned. It is possible to select several response types at the same time.
 - ④ Deadlines: by default, all deadlines are shown when entering this tab. Three tick boxes allow the search to be narrowed down to either only upcoming or only overdue ones.
 - ⑤ Click **Apply** to activate the filter.
 - ⑥ Click **Clear all filters** to revert to the default display mode (All).
 - ⑦ Clicking the arrows enables switching to next or previous pages.

7.6.5. Viewing deadline information in the Received Requests tab

Two tabs provide information:

1. My Received Requests: list of all received open cases.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

2. Deadlines: list of all deadlines, both upcoming and overdue

The same functionality is provided as for the issued cases (Overdue marking, filtering).

7.6.6. Viewing deadline information on case level via Overview tab

As soon as the case is issued, two relevant deadlines are displayed on the Overview Tab. This is applicable to both issued and received cases.

The main difference being here that on Issued cases, in case a forward occurred by the initial Executing Authority, deadlines are displayed next to each other for all authorities involved.

DUE DATE	
CZ(1) Krajske statni zastupitelstvi Usti nad Labem	
Form D:	02/05/2024 00:00
Form K:	25/05/2024 00:00

Figure 156: Viewing deadline information on case level in the Overview tab

7.6.7. Manual deadlines management SoD

The deadlines can be manually managed due to exceptional circumstances by the Supervisor who is assigned to the authority where the case belongs. In order to manage the deadline manually, the user should:

1. Open the Overview tab.

DUE DATE	
CA-CIV-1 Fejér Megyei Főügyészség	
Form M:	15/01/2025 ✓

Figure 157: Manage deadlines

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

2. In section 'Due date', click the edit icon.
3. The RI displays the following screen:

---------------	--	-----------------

8. TAKING OF EVIDENCE

8.1. Introduction

A Taking of Evidence (ToE) is a cross-border cooperation between the courts of the Member States in the taking of evidence in civil or commercial matters [AD.2].

The ToE may also be issued to the central body or the competent authority to request for the direct taking of evidence. The central body or the competent authority may assign a court of its Member State to take part in the direct taking of evidence in order to ensure that this Article is properly applied and that the conditions under which the direct taking of evidence is to be carried out are compliant with.

8.1.1. Overview

The process between creating a new case and sending it occurs in the **Internal Workflow**. During that process, the case is accessible only for authorized users from your Issuing Authority.

When all steps of Internal Workflow are completed, the case can be sent to a chosen Executing Authority.

The process of communication between Issuing Authority and Executing Authority occurs in the **External Workflow**.

8.1.2. High Level End to End Process

1. A competent authority creates the ToE.
2. The ToE request is reviewed by a user with Reviewer role.
3. The ToE is being sent to an appropriate Executing Authority in another Member State.
4. Communication between Issuing and Executing Authorities takes place.
5. The receipt of the ToE request is confirmed within seven days.
6. A decision is provided within ninety days of ToE receipt.
7. The case can be withdrawn by Issuing Authority, and/or forwarded by Executing Authority to another Competent Authority for full ToE execution.

---------------	--	-----------------

8.2. Create ToE

8.2.1. Initiate a request creation

8.2.1.1. Starting a new case - TOEA

Steps below are applicable to users with 'Author' role.

To begin a process of requesting for the taking of evidence, create a new case.

Figure 159: 'Start new request' button

- ① Click **Start new request** button in the left-hand menu.

 A screenshot of the 'Prepare request' pop-up window. The window has a title bar with a close button. The main content area is titled 'Start a new request'. It contains two main input fields: 'Type of Request*' with a dropdown menu showing 'TOEA Taking of evidence (Form A)' and a green circle with the number '2'; and 'Subject of Request*' with a text input field containing 'ToE A test' and a green circle with the number '3'. Below these fields, there is a note: 'System Case Number is auto-generated when the request is sent. Date of Request is auto-generated when the request is sent.' At the bottom of the form is a blue 'Continue' button.

Figure 160: ToE: Selecting the request type and entering the request subject

- ② A pop-up window will appear. Select TOEA from the **Type of request** dropdown list.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

③ Fill in **Subject of request** and click **Continue**. If you wish to cancel, click ‘x’ button at the top right corner of the pop-up.

Figure 161: ToE Form A sections

- ④ A new draft will be created and displayed with Form A ready for completion.
- ⑤ Complete **sections 1-13 and Signature and Date section** of Form A by using the List of Sections menu.

NOTE: If the user with an Author role who initiated the SoD does not have additional roles of Reviewer and/or Sender, then the Author should assign additional users with the relevant roles required to review and send the request or ask Supervisor for adding those users.

8.2.1.2. Choosing Executing Authority

Steps below are applicable to users with ‘Author’ and ‘Reviewer’ role.

The screenshot displays the 'TOEA test' interface within the 'Justice Digital EXchange System (JUDEX)'. The left sidebar contains navigation options: 'Start new request', 'DASHBOARD', 'ISSUED REQUESTS', 'RECEIVED REQUESTS', 'DRAFTS', 'STATISTICS', and 'DOWNLOADS'. The main content area is titled 'TOEA test' and includes a 'National Case No.' field. Below the title, there are tabs for 'Overview', 'Form A', 'Event & Message Timeline', and 'eTranslations'. The 'Form A' tab is active, showing a list of sections on the left: 1. INITIAL SECTION, 2. REQUESTING COURT, 3. REQUESTED COURT (highlighted), 4. IN THE CASE BROUGHT BY THE CLAIMANT/PETITIONER(S), 5. REPRESENTATIVES OF THE CLAIMANT/PETITIONER, 6. AGAINST THE DEFENDANT/RESPONDENT(S), and 7. REPRESENTATIVES OF DEFENDANT/RESPONDENT. The '3. REQUESTED COURT' section is expanded, showing a warning message: 'If a country is not present on the below list, it might not accept this type of request. Please check the reason on this page.' Below this, there is a 'Country:' dropdown menu. At the bottom right, there are 'Auto save' and 'Save' buttons.

Figure 162: ToE Form A section 3. REQUESTED COURT

This screenshot shows the same 'TOEA test' interface as Figure 162, but with the 'Country:' dropdown menu open. The dropdown list shows 'Republic of Poland' selected. Below the dropdown, there is a '3.1. Name:' field with a 'Select authority...' button and a 'Choose authority' button. A green circle with the number '1' is placed next to the 'Choose authority' button. The 'Auto save' and 'Save' buttons are still visible at the bottom right.

Select

Figure 178: TOEX searching for executing authority

- ③ Select Authority from the list of results by clicking a radio button.
- ④ Click **Select**.

After choosing **Executing Authority**:

- ⑤ Type a free form message (mandatory field) and attach documents (optional).

NOTE: TOEX case can be sent only by a user with Sender role. If the user with an Author role who initiated the ToE does not have additional Sender role, then the Author should assign a Sender or ask Supervisor for adding the Sender.

The TOEX does not have SIGNATURE AND DATE section. A user can attach a signed document via **Attach Document** button from the action bar (optional).

The TOEX cannot be forwarded or withdrawn.

8.2.1.7. Mandatory fields

All mandatory fields must be filled in before the ToE can be electronically submitted. These mandatory fields are checked by a validation check. This validation consists of set of syntactical and semantical validations of the data contained in the form. A check is performed to verify that all required (mandatory) fields of ToE Form A or Form L have been filled. You can **trigger validation manually** at any time, while you edit a Form A or Form L.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

To trigger validation:

Figure 179: ToE Form L validation

- ① View an edited case and select **Form A/ Form L** tab.
- ② Click **Validation check**.

Figure 180: ToE Form L mandatory fields

- ③ Validation will be performed and the toast notification (warning or success) will be displayed. If there are validation errors, fields and sections containing errors will be highlighted in red colour.

8.2.1.8. Pushing a case to the next step

Steps below are applicable to users with 'Author' and/or Supervisor role.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

The screenshot shows the 'TOEL test' form in the JUDEX system. The form is titled 'TOEL test' and has a 'National Case No.' field. The form is divided into sections: 1-2. INITIAL SECTION, 3. REQUESTING COURT, 4. CENTRAL BODY/COMPETENT AUTHORITY OF THE REQUESTED STATE, 5. IN THE CASE BROUGHT BY THE CLAIMANT/PETITIONER(S), 6. REPRESENTATIVES OF THE CLAIMANT/PETITIONER, 7. AGAINST THE DEFENDANT/RESPONDENT(S), and 8. REPRESENTATIVES OF. The 'Signature and Date' section is highlighted with a green circle and the number 1. The 'Send to review' button is also highlighted with a green circle and the number 1.

Figure 181: ToE Form L send to review

① In the edited case click **Workflow > Send to review**:

- A toast notification (success) will show up in the bottom.
- A new timestamp: 'Ready to review' will show up on the **Event & Message Timeline**.
- If you have no other roles except Author, the workflow button will be disabled, as there are no other actions that can be performed.

8.2.1.9. Review

The next step in the workflow of a case is to review it and mark it as 'Positively Reviewed' or return it for amendment, or to reject completely if needed. Edition of an ToE is also possible.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Steps below are applicable to users with 'Reviewer' role.

The screenshot shows the 'TOEL test' interface. The left sidebar contains navigation links: 'Start new request', 'DASHBOARD', 'ISSUED REQUESTS', 'RECEIVED REQUESTS', 'DRAFTS', 'STATISTICS', and 'DOWNLOADS'. The main area displays case details for 'TOEL'. The 'STATUS' is 'READY TO REVIEW'. A dropdown menu is open, showing options: 'Accept Review', 'Reject', and 'Return for amendment'. A green circle with the number '1' highlights the 'Accept Review' option. The interface also shows 'ISSUING STATE' (Czech Republic), 'EXECUTING STATE' (Republic of Poland), 'ISSUING AUTHORITY' (CA-CIV-1 Krajské státní zastupitelství Ústí nad Labem), and 'EXECUTING AUTHORITY' (CA-CIV-1 CIVIL Ministerstwo Sprawiedliwosci (Departament Ws...)).

Figure 182: ToE Form L: accepting review

① In a reviewed case click **Workflow > Accept review:**

- A new timestamp: 'Positively Reviewed' will show up on the **Event & Message Timeline**.
- If you have no other roles except Reviewer, the workflow button will be disabled, because there are no other actions for you to perform.

The screenshot shows the 'TOEL test' interface after the review. The 'STATUS' is now 'POSITIVELY REVIEWED'. The 'Workflow' button is disabled. The interface also shows 'ISSUING STATE' (Czech Republic), 'EXECUTING STATE' (Republic of Poland), 'ISSUING AUTHORITY' (CA-CIV-1 Krajské státní zastupitelství Ústí nad Labem), and 'EXECUTING AUTHORITY' (CA-CIV-1 CIVIL Ministerstwo Sprawiedliwosci (Departament Ws...)).

Figure 183: ToE Form L: 'Positively reviewed' status

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Alternatively:

1. Click **Workflow > Return for amendment** and enter optional message - the case will go back to a draft editable by Author role. The Author will have to make amendments and click again **Workflow > Send to review**.
2. Click **Workflow > Reject** – the case will be rejected, and no more actions of Workflow buttons can be performed by users.
3. Reviewer is also able to edit a case.

8.2.1.10. Signature step

The next step in the workflow, after positively reviewing, is to add a signature to ToE Form A/ ToE Form L. Edition of the ToE request is also possible.

Steps below are applicable to users with Sender role.

Figure 184: ToE Form L: preparation for signature

- ① In a reviewed case click **Workflow > Preparation for signature**. A warning pop-up with languages accepted by a Receiving State is displayed.
- C. Click **Workflow > Return for amendment** - the case will go back to a draft editable by Reviewer role. The Reviewer will have to make amendments and click again **Workflow > Accept Review**.
- D. Click **Workflow > Reject** – the case will be rejected, and no more actions of Workflow buttons can be performed by users.
- E. Sender is not able to edit case.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Figure 185: Signing ToE Form L

- ② After the user clicks **Sign** in Workflow, then the RI displays a pop-up window.

Figure 186: ToE Form L download and upload signed document

- ③ To download and upload ToE Form A/ ToE Form L request, follow the steps described in '[Sign chapter](#)'.

Sending Form L:

The last step of internal workflow is to send the case to the selected Executing Authority.

Steps below are applicable to users with 'Sender' role.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

① Open a case.

Figure 187: Sending ToE Form L

② Click **Workflow** > **Send**

③ System sends ToE Form A/ ToE Form L and confirmation message appears.

Figure 188: Sending ToE Form L: Confirmation message

The system will perform a validation check. If validation is performed successfully, the case will be sent, and the status will change to 'Issued'.

Exceptions: Sending error – in this situation a user with Sender role will be able to resend a request to Executing Authority using a **Resend** button on the Timeline.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

After sending a TOEA request to an Executing Authority, before receiving a reply, the Workflow menu of an Issued Request will allow to perform the following actions:

- Create Form N
- Create Form F
- Withdrawal
- Send other information
- Close a case / Reopen a case

After sending a TOEL request to an Executing Authority, before receiving a reply, the Workflow menu of an Issued Request will allow to perform the following actions:

- Create Form N
- Create Form F
- Withdrawal
- Send other information
- Close a case / Reopen a case

Please keep in mind, that the content of the Workflow menu is changing according to the status of the ToE.

8.5. Execute ToE

8.5.1. Acknowledgement of Receipt TOEA

When Executing Authority receives TOEA request, it needs to send Acknowledgement of receipt of a request for the taking of evidence.

Sending manual confirmation of the receipt (Form B) to the Issuing State is divided to two (2) steps:

Step 1. Creating Form B:

① View the incoming request.

Figure 199: TOEA: Creating Form B: Acknowledgement of receipt

② Click **Workflow > Create Form B**.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

The screenshot shows the TOEA authority interface. The sidebar on the left contains navigation links: Start new request, DASHBOARD, ISSUED REQUESTS, RECEIVED REQUESTS, DRAFTS, STATISTICS, and DOWNLOADS. The main content area is titled 'TOEA authority' and shows a draft of Form B. A green circle 3 highlights the 'Form B' tab in the top navigation bar. The form content includes sections for '1-3. INITIAL SECTION', '4. REQUESTED COURT', '5. THE REQUEST WAS RECEIVED ON', '6. THE REQUEST CANNOT BE DEALT WITH BECAUSE', and 'SIGNATURE AND DATE'. The 'ACKNOWLEDGEMENT OF RECEIPT OF A REQUEST FOR THE TAKING OF EVIDENCE' section contains text about Article 9(1) of Regulation (EU) 2020/1783 and a reference number field. A green circle 4 highlights the 'Save' button at the bottom right of the form.

Figure 200: TOEA: Form B draft version displayed

- ③ Form B draft version will be created and displayed.
- ④ While filling data in Form B sections, remember to save your data.

Sending Form B:

The screenshot shows the TOEA test interface. The sidebar on the left is the same as in Figure 200. The main content area is titled 'TOEA test' and shows a draft of Form B. A green circle 1 highlights the 'Send' button in the action bar at the bottom of the form. The form content includes sections for '1-3. INITIAL SECTION', '4. REQUESTED COURT', '5. THE REQUEST WAS RECEIVED ON', '6. THE REQUEST CANNOT BE DEALT WITH BECAUSE', and 'SIGNATURE AND DATE'. The 'ACKNOWLEDGEMENT OF RECEIPT OF A REQUEST FOR THE TAKING OF EVIDENCE' section contains text about Article 9(1) of Regulation (EU) 2020/1783 and two reference number fields: '1. Reference No of the requesting court:' with value '1234' and '2. Reference No of the requested court:' with value '1234'.

8.5.2. Acknowledgement of Receipt TOEL

For TOEL (Request for direct taking of evidence) there is no dedicated form for acknowledging receipt.

To check if the request was received by the Executing Authority, a user at Issuing Authority needs to perform the following steps:

- ① Go to the **Event & Message timeline** tab in the request.
- ② Click on 'Form L'. Form details with information about the receipt will be displayed.

8.5.3. Provide Decision

8.5.3.1. TOEA – Form K

Form K is being used to send a decision that a received TOEA:

- has been executed,
- has been refused.

A user assigned to the case should:

- ① Click **Workflow > Create Form K**.

The screenshot shows the TOEA authority interface. The left sidebar contains navigation options: Start new request, DASHBOARD, ISSUED REQUESTS, RECEIVED REQUESTS, DRAFTS, STATISTICS, and DOWNLOADS. The main area displays the TOEA authority page for case TOEA-PL-CZ-2024-10-23-0002-1. The workflow dropdown is open, showing a list of actions: Create Form B, Forward + Create Form C, Create Form D, Create Form E, Create Form H, Create Form I, Create Form J, Create Form K (highlighted with a green circle 1), Create Form N, Send other information, and Close a case. The main content area shows the '1-3. INITIAL SECTION' and 'ACKNOWLEDGEMENT OF RECEIPT OF A REQUEST FOR THE TAKING OF EVIDENCE'.

Figure 207: TOEA: Workflow dropdown list – Create Form K

The screenshot shows the TOEA authority interface with the 'Form K' draft form displayed. The 'Form K' tab is selected, and the form is in draft status. The main content area shows the '1-4. INITIAL SECTION' and 'INFORMATION ON THE EXECUTION OF THE REQUEST FOR THE TAKING OF EVIDENCE'. A green circle with the number 2 highlights the 'Form K' tab, and a green circle with the number 3 highlights the 'Save' button at the bottom right. The bottom of the form includes a 'Reset Section' button, an 'Auto save' toggle, and a 'Save' button.

Figure 208: TOEA: Form K draft form

- ② Form K draft version will be created and displayed.
- ③ While filling data in Form K sections, remember to save your data.

Sending Form K:

Figure 209: TOEA Form K: send to review

① Click **Send to review** button from Workflow.

Figure 210: TOEA: Form K accept review

② The user with Reviewer role should select **Accept Review** to move it to the next step (Reject and Return for amendment are also the available options). The Assigned can also edit the case.

Sending Form M:

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

The screenshot shows the JUDEX system interface. On the left is a navigation menu with options like 'Start new request', 'DASHBOARD', 'ISSUED REQUESTS', 'RECEIVED REQUESTS', 'DRAFTS', 'STATISTICS', and 'DOWNLOADS'. The main area displays the 'TOEL_test' form for case 'TOEL-PL-CZ-2024-10-21-0002-1'. The form has tabs for 'Overview', 'Form L', 'Form M', 'Event & Message Timeline', and 'Translations'. The 'Form M' tab is active, showing sections for '1-3. INITIAL SECTION', '4. CENTRAL BODY/COMPETENT AUTHORITY', '5-6. INFORMATION FROM THE CENTRAL BODY/COMPETENT AUTHORITY', and 'SIGNATURE AND DATE'. A green circle with the number 1 highlights the 'Send to review' button in the top right corner of the form area.

Figure 219: TOEL Form M: send button

① Click **Send to review** to move Form M to the next step.

The screenshot shows the JUDEX system interface, similar to Figure 219. The 'Form M' tab is active. A green circle with the number 2 highlights the 'Accept Review' button in the top right corner of the form area. Other buttons visible include 'Reject', 'Return for amendment', 'Create Form M', 'Create Form N', 'Create Notification of delay', 'Forward + Create Notification of forward', 'Send other information', and 'Close a case'.

Figure 220: TOEL: Form M accept review

② The user with Reviewer role should select **Accept Review** to move it to the next step (Reject and Return for amendment are also the available options). The Assigned can also edit the case.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

The screenshot shows the JUDEX interface for a case titled 'TOEL_test'. The left sidebar contains navigation options: 'Start new request', 'DASHBOARD', 'ISSUED REQUESTS', 'RECEIVED REQUESTS', 'DRAFTS', 'STATISTICS', and 'DOWNLOADS'. The main area displays the 'Form M' tab for the case 'TOEL-PL-CZ-2024-10-21-0002-1'. A dropdown menu is open, showing the 'Preparation for signature' option selected. The menu also includes 'Reject', 'Return for amendment', 'Create Form M', 'Create Form N', 'Create Notification of delay', 'Forward + Create Notification of forward', 'Send other information', and 'Close a case'. The case details include sections for '1-3. INITIAL SECTION', '4. CENTRAL BODY/COMPETENT AUTHORITY', '5-6. INFORMATION FROM THE CENTRAL BODY/COMPETENT AUTHORITY', and 'SIGNATURE AND DATE'. The 'INFORMATION FROM THE CENTRAL BODY/COMPETENT AUTHORITY CONCERNING EVIDENCE' section contains text about Article 19 of Regulation (EU) 2020/1783 and a reference to 'OJ L 405, 2.12.2020, p. 1'. The '1. Reference No of the requesting court:' field contains the value '123'.

Figure 221: ToE Form M: preparation for signature

③ The user with Sender role should select **Preparation for signature** to sign and upload the signed document (other available options are: Reject and Return for amendment). The Sender cannot edit the case.

The screenshot shows the JUDEX interface for the same case 'TOEL_test'. The 'Form M' tab is still active. A dropdown menu is open, showing the 'Sign' option selected. The menu also includes 'Create Form M', 'Create Form N', 'Create Notification of delay', 'Forward + Create Notification of forward', 'Send other information', and 'Close a case'. The case details and the 'INFORMATION FROM THE CENTRAL BODY/COMPETENT AUTHORITY CONCERNING EVIDENCE' section are the same as in Figure 221.

Figure 222: Signing ToE Form M

④ The user with Sender role should select **Sign**.

---------------	--	-----------------

Figure 225: ToE Form M confirmation pop-up

⑦ Close the confirmation pop-up.

Figure 226: ToE Form M sending

⑧ Send the form by using Send button from a Workflow dropdown list.

The screenshot shows the 'TOEL test' form in the JUDEX system. The form is titled 'TOEL-PL-CZ-2024-11-05-0001-1'. The left sidebar contains navigation options: 'Start new request', 'DASHBOARD', 'ISSUED REQUESTS', 'RECEIVED REQUESTS', 'DRAFTS', and 'DOWNLOADS'. The main content area is divided into two columns. The left column contains sections 1.3, 4, and 5.6. The right column contains section 5.6, which is titled 'INFORMATION FROM THE CENTRAL BODY/COMPETENT AUTHORITY CONCERNING DIRECT TAKING OF EVIDENCE'. This section includes a dropdown for 'Country' (Czech Republic), a text field for 'Name', a text field for 'Address', a text field for 'Phone', a text field for 'Fax', a text field for 'E-mail', and a text field for 'Reference No. of the requesting court'. The 'Reference No. of the requesting court' field contains the value '123'.

Figure 227: ToE Form M section 6 completed

NOTE: If in TOEL Form M point '6. The following court was assigned to provide practical assistance in the direct taking of evidence' there was an assisting court indicated, Form L is being automatically forwarded to the assisting court after sending Form M. In that case, after sending Form M the RI automatically creates 'Notification of forward' tab.

The screenshot shows the 'TOEL test' form in the JUDEX system, with the 'Notification of forward' tab selected. The left sidebar is the same as in Figure 227. The main content area is divided into two columns. The left column contains sections 1-3, 4, and 5-6. The right column contains section 5.6, which is titled 'INFORMATION FROM THE CENTRAL BODY/COMPETENT AUTHORITY CONCERNING DIRECT TAKING OF EVIDENCE'. This section includes a text field for 'Reference No. of the requesting court' containing the value '123'. Below this field is a text field for 'Article 19 of Regulation (EU) 2020/1783 of the European Parliament and of the Council of 25 November 2020 on cooperation between the courts of the Member States in the taking of evidence in civil or commercial matters (taking of evidence)'. The 'Attachments' section shows a file named 'image (8).png' with a status of 'Antivirus status: ✓'.

Figure 228: ToE Form M automatic forward and 'Notification of forward'

8.5.6. Terminate a process upon withdrawal of the request

If you receive a Withdrawal request from the Issuing Authority, then you should abort all ongoing actions and send confirmation to the Issuing Authority. The ToE status will change to WITHDRAWN.

8.6. Deadlines execution

8.6.1. Deadlines execution TOEA

This feature shows whether:

1. ToE Form B (Acknowledgement of receipt of a request for the taking of evidence) has been sent within seven days of the ToE Form A receipt.
2. ToE Form K (Information on the execution of the request for the taking of evidence) has been sent within ninety days of the ToE Form A receipt.
3. ToE Form D Reply (Reply to request for additional information for the taking of evidence) has been sent within sixty days of ToE Form D receipt.
4. ToE Form E (Acknowledgement of receipt of deposit of advance) has been sent within 10 days of Form D Reply receipt.

8.6.2. Deadlines execution TOEL

This feature shows whether:

1. ToE Form M (Information from the central body/competent authority concerning direct taking of evidence) has been sent within thirty days of the ToE Form L receipt.

8.6.3. Viewing deadline information in the Dashboard tab

Figure 245: Viewing deadline information in the Dashboard tab

① Cases with an overdue deadline (one or many) are marked with a red dot. A deadline that expires on today's date is also leading to the case being displayed with a red dot.

8.6.4. Viewing deadline information in the Issuing Requests tab

Two tabs provide information:

1. My Issued Requests: list of all issued open cases.
2. Deadlines: list of all deadlines for a case, both upcoming and overdue.

Figure 246: Viewing deadline information in the Issuing Requests tab

- ① My Issued Requests Tab: similarly to the dashboard, overdue cases, or cases for which a deadline is due today are marked with a red dot.
- ② Click **Deadlines**: a list of all overdue and upcoming deadlines is displayed by default. The overdue or those with a deadline due today are marked in red.

Figure 247: Deadline information in the Issuing Requests tab

- ① Due date: displays the deadline date.
- ② Expected Response: indicates what response subject to a deadline is expected.

Filtering possibilities are provided to narrow down the list of cases displayed.

- ③ Expected Response: 5 tick boxes allow the search on a specific deadline. Depending on the selection, a particular subset of cases is returned. It is possible to select several response types at the same time.
- ④ Deadlines: by default, all deadlines are shown when entering this tab. Three tick boxes allow the search to be narrowed down to either only upcoming or only overdue ones.
- ⑤ Click **Apply** to activate the filter.
- ⑥ Click **Clear all filters** to revert to the default display mode (All)
- ⑦ Clicking the arrows enables switching to next or previous pages.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

8.6.5. Viewing deadline information in the Received Requests tab

Two tabs provide information:

3. My Received Requests: list of all received open cases.
4. Deadlines: list of all deadlines, both upcoming and overdue

The same functionality is provided as for the Issued Cases (Overdue marking, filtering).

8.6.6. Viewing deadline information on case level via Overview tab

As soon as the case is issued, 2 relevant deadlines are displayed on the Overview Tab. This is applicable to both issued and received cases.

The main difference being here that on Issued cases, in case a forward occurred by the initial Executing Authority, deadlines are displayed next to each other for all authorities involved.

 DUE DATE	
CZ(1) Krajske statni zastupitelstvi Usti nad Labem	
Form B:	02/05/2024 00:00
Form K:	24/07/2024 00:00

Figure 248: Viewing deadline information on case level via Overview tab

8.6.7. Manual deadlines management ToE

The deadlines can be manually managed due to exceptional circumstances by the Supervisor who is assigned to the authority where the case belongs. In order to manage the deadline manually, the user should:

1. Open the Overview tab.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Figure 249: Manage deadlines

2. In section 'Due date', click the edit icon.
3. The RI displays the following screen:

Authority name	Deadline type	Deadline date	Fulfilled on	Cancelled
CA-CIV-1 Krajské státní zastupitelství Ústí nad Labem	Form B	23/12/2024	dd/mm/yyyy	☐
CA-CIV-1 Krajské státní zastupitelství Ústí nad Labem		15/01/2025	dd/mm/yyyy	☐
CA-CIV-1 Krajské státní zastupitelství Ústí nad Labem		16/03/2025	dd/mm/yyyy	☐
CA-CIV-1 Krajské státní zastupitelství Ústí nad Labem	Form K	16/03/2025	dd/mm/yyyy	☒
CA-CIV-1 Krajské státní zastupitelství Ústí nad Labem		16/03/2025	dd/mm/yyyy	☐

Figure 250: Manual deadlines management

User can manage deadline dates or mark fulfilled on or mark 'cancelled'.
Once the updates are done, a user should click on 'Save changes' button.
The RI saves updates and closes the pop-up.

---------------	--	-----------------

9. STATISTICS HANDLING

Statistics handling is a system module that allows users with Statistics Handler role to generate one or any number of statistical reports for any selected period based on monthly reports. This functionality enables creation of customized summaries according to the specific criteria based on the SoD and ToE Regulations. Users can flexibly choose the time range, allowing for more accurate and precise monitoring of results over the selected period. The date range will be limited to selection from May 2025 to the current date.

The ability to generate the statistics is available within a single RI instance. The reports will be created manually – where a user with the Statistics Handler role can select any report of their choice. The System will generate reports in CSV format.

Currently, we distinguish the following reports for individual legal instruments:

9.1. SOD

9.1.1. Transmitted

- Request for Service of Documents (Form A)
- Request to Determine the Address of The Person to be Served (Form B)
- SODX + Reasons for not Transmitting (SODX + Form A Section 9)
- Completion of Service (Form K - Section 1)
- Refusal of Document (Form K - Section 3)
- Reason for Non-Service of Document (Form K - Section 4)
- Consolidated Report for Transmitted SOD – this report will present the consolidated number of all sent messages for all forms within the SOD instrument.

9.1.2. Received

- Request for Service of Documents (Form A)
- Request to Determine the Address of The Person to be Served (Form B)
- SODX + Reasons for not Transmitting (SODX + Form A Section 9)
- Consolidated Report for Received SOD - this report will present the consolidated number of all received messages for all forms within the SOD instrument.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

9.1.3. Technical Error Messages

- This report will present the consolidated number of errors for messages/forms within: Form A, Form B, SODX

9.2. TOE

9.2.1. Transmitted

- Request for the Taking of Evidence (Form A)
- Request for Direct Taking of Evidence (Form L)
- TOEX + Reasons for not transmitting through the decentralised IT system (TOEX + Form A Section 13)
- Information on the execution of the request for the Taking of Evidence (Form K Section 5)
- Information from the Central Body/Competent Authority Concerning Direct Taking of Evidence (Form M - Section 5.1 and Section 5.2)
- Consolidated Report for Transmitted ToE - this report will present the consolidated number of all sent messages for all forms within the TOE instrument.
-

9.2.2. Received

- Request for the Taking of Evidence (Form A)
- Request for Direct Taking of Evidence (Form L)
- TOEX + Reasons for not transmitting through the decentralised IT system (TOEX + Form A Section 13)
- Consolidated Report for Received ToE - this report will present the consolidated number of all received messages for all forms within the TOE instrument.

9.2.3. Technical Error Messages

- This report will present the consolidated number of errors for messages/forms within: Form A, Form L, TOEX

9.3. Create Statistics Report

Steps below are only applicable to users with 'Statistics Handler' role.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

The first screen after logging in will be the Statistics Dashboard, where the user can see all available reports.

- ① Select the report from the presented list.
- ② Select time frame.
- ③ Click **Generate**.

Figure 251: Selecting Report and Time Frame

Figure 252: Confirmation of the report generation

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Next, the system will display a pop-up informing that the reports will be available in the **Downloads** section on the left-hand menu.

Please remember that if you want to generate new reports, there is also a ‘Clear section’ option available, which will clear the entire section so you can select the desired reports again.

Figure 253: Downloads section

NOTE: We recommend scheduling report generation during nighttime hours due the potential system load, which may impact performance. However, the System Administrator has the flexibility to adjust the generation time as needed. For more information, please refer to the Architecture Guidelines and Software Design Document.

---------------	--	-----------------

10. BASIC FUNCTIONALITIES

10.1. Communication between Authorities

10.1.1. View incoming message

To see a message received from an Executing Authority:

- ① Select **Issued or Received Requests**.
- ② Click a case you wish to view.

Depending on the type of a message:

Figure 254: SoD A: Overview tab

- ③ If you receive a form, it will be visible in a separate tab. Click it to see the content.

Figure 255: SoD A: Attachments on the Overview tab

- ④ Every type of sent/ received message is displayed on the **Event & Message Timeline**.
- ⑤ All attachments, messages exchanged in a process of communication, are displayed in the Overview tab and in corresponding tabs.

10.1.2. SODA: Send a request for additional information (Form E)

When Executing Authority receives SODA request, some additional information might be necessary. The Executing Authority sends Request for additional information or documents for the service of documents (Form E) to the Issuing State. This process is divided to two (2) steps:

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Step 1. Creating Form E:

① View the incoming request.

The screenshot shows the JUDEX interface for a case titled 'SODA test' (SODA-PL-CZ-2024-10-25-0001-1). The case is in the 'RECEIVED' status. The 'Workflow' dropdown menu is open, showing options like 'Create Form D', 'Create Form E' (highlighted with a green circle and '2'), 'Create Form F', 'Forward + Create Form G', 'Create Form K', 'Generate Form L PDF', 'Send other information', and 'Close a case'.

Figure 256: SODA: Creating Form E: Request for additional information or documents for the service of documents

② Click **Workflow > Create Form E**.

The screenshot shows the 'Form E' draft version displayed. The 'Form E' tab is selected (highlighted with a green circle and '3'). The form is titled 'REQUEST FOR ADDITIONAL INFORMATION OR DOCUMENTS FOR THE SERVICE OF DOCUMENTS'. It includes fields for 'MISSING INFORMATION / DOCUMENTS', 'SIGNATURE AND DATE', and 'REQUEST FOR ADDITIONAL INFORMATION OR DOCUMENTS FOR THE SERVICE OF DOCUMENTS'. The 'Save' button is highlighted with a green circle and '4'.

Figure 257: SODA: Form E draft version displayed

③ Form E draft version will be created and displayed.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

- ④ While filling data in Form E sections, remember to save your data.

Sending Form E:

Figure 258: SODA: Form E: Request for additional information or documents for the service of documents sending to review

- ① Click **Send to review** button from Workflow.

Figure 259: SoD For E: accept review

- ② The user with Reviewer role should select **Accept Review** to move it to the next step (Reject and Return for amendment are also the available options). The Assigned can also edit the case.

Figure 260: SoD Form E: preparation for signature

③ The user with Sender role should select **Preparation for signature** to sign and upload the signed document (other available options are: Reject and Return for amendment). The Sender cannot edit the case.

Figure 261: Signing SoD Form E

④ The user with Sender role should select **Sign**.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Figure 262: SoD Form E: upload document

⑤ Click **Upload document**.

Figure 263: SoD Signature Form E

⑥ Download, sign and upload the document as described in ‘[Sign chapter](#)’.

NOTE: When ‘Other types of signatures’ option is selected, then another type of document can be uploaded (e.g.: jpg, jpeg, png). The document must be signed with one of the following: digital signatures or seals, stamps, handwritten signatures.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Figure 264 SODA: Signed document of Form E uploaded

- ⑦ Close the confirmation pop-up.
- ⑧ Send the form by using Send button from a Workflow dropdown list.

10.1.3. SODA: Reply to a request for additional information (Form E Reply)

You can reply to a request for additional information which you received from Executing Authority. Direct reply will make your response correlated with a request from Executing Authority.

Figure 265: SODA: Reply to request for additional information: Clicking 'Reply' button

- ① View the **Request for additional information or documents for the service of documents** and click a **Reply** button.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Then, the RI displays a draft version of a Reply to a request for additional information (Form E Reply) and confirmation message.

The screenshot shows the SODA test interface. The left sidebar contains a 'List of Sections' menu with items like DASHBOARD, ISSUED REQUESTS, RECEIVED REQUESTS, DRAFTS, STATISTICS, and DOWNLOADS. The main area displays the 'Form E Reply' tab for a case titled 'SODA test'. A green box highlights the 'REPLY TO REQUEST FOR ADDITIONAL INFORMATION OR DOCUMENTS FOR THE SERVICE OF DOCUMENTS' section, and a green circle with the number 2 is next to it. Another green circle with the number 3 is next to the 'Send' button. The form includes fields for 'Reference No of the transmitting agency' (1234), 'Reference No of the receiving agency' (123), and 'Addressee' (dsf). The bottom right corner has an 'Auto save' indicator and a 'Save' button.

Figure 266: SODA: Steps to reply to a request for additional information

- ② Complete all mandatory fields of E Reply message by using the List of Sections menu.
- ③ Click **Send** to send Form E message to the Executing Authority.
- ④ System displays a pop-up window. Click **Yes** to confirm that you want to send Withdrawal Form.

The screenshot shows a pop-up window titled 'Send Form E Reply'. It contains the text 'Do you want to send Form E Reply?' and two buttons: 'No' and 'Yes'. A green circle with the number 4 is next to the 'Yes' button.

Figure 267: SODA: Send reply to a request for additional information

10.1.3.1. SODA: Send a request for information on service or non-service of documents

You can send a request for information on service or non-service of documents to the Executing Authority (Form I).

The screenshot shows the JUDEX interface for a case titled 'SODA test'. The left sidebar contains navigation options: Start new request, DASHBOARD, ISSUED REQUESTS, RECEIVED REQUESTS, DRAFTS, STATISTICS, and DOWNLOADS. The main panel displays case details for 'SODA-CZ-PL-2024-10-25-0001-1'. A red circle with the number '1' highlights the 'Create Form I' option in the 'Workflow' dropdown menu. Other options in the menu include 'Send other information' and 'Close a case'. The case details include Issuing State (Czech Republic), Issuing Authority (CA-CIV-1 Krajské státní zastupitelství Ústí nad Labem), Executing State (Republic of Poland), Accepted Languages (DE, EN, PL), and Receiving Agency (CA-CIV-1 CIVIL Ministerstwo Sprawiedliwosci (Departament Ws...)). The status is 'ISSUED' and the request started on 26/10/2024. The assigned user is 'Jeff1 Civ1 Civ2 All'.

Figure 268: SoD create Form I

① Select **Create Form I** option from Workflow.

The screenshot shows the JUDEX interface for the same case 'SODA test'. The 'Form I' tab is selected, and the 'REQUEST FOR INFORMATION ON SERVICE OR NON-SERVICE OF DOCUMENTS' form is displayed. A red circle with the number '2' highlights the 'Send' button. The form includes fields for 1. INFORMATION ABOUT THE REQUEST, 2. TRANSMITTING AGENCY, 3. RECEIVING AGENCY, 4. ADDRESSEE, and SIGNATURE AND DATE. The 'Reference No of the transmitting agency' field contains the value '1234'. The form is in 'DRAFT' status.

Figure 269: SoD Form I draft form

② Complete all mandatory fields, save your data and click **Send**.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Figure 270: SoD Form I document upload

③ Click **Upload document**.

Figure 271: Download, sign and upload SoD Form I

④ Download, sign and upload the document as described in '[Sign chapter](#)'.

NOTE: When 'Other types of signatures' option is selected, then another type of document can be uploaded (e.g.: jpg, jpeg, png). The document must be signed with one of the following: digital signatures or seals, stamps, handwritten signatures.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Figure 272: SoD Form I confirmation pop-up

- ⑤ **Close** the confirmation pop-up.
- ⑥ Send the form by using Send button from a Workflow dropdown list.

10.1.3.2. SODA: Send a reply request for information on service or non-service of documents

You can reply to a request for information on service or non-service of documents sent by the Issuing Authority (Form J).

10.1.4. TOEA: Send a request for additional information (Form D)

When Executing Authority receives TOEA request, and needs additional information, the authority can send a Request for additional information for the taking of evidence (Form D) to the Issuing State. This process is divided to two (2) steps:

Step 1. Creating Form D:

- ① View the incoming request.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Figure 278: TOEA: Creating Form D: Request for additional information for the taking of evidence

② Click **Workflow > Create Form D**.

Figure 279: TOEA: Form D draft version displayed

③ Form D draft version will be created and displayed.

④ While filling data in Form D sections, remember to save your data.

Sending Form D:

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Figure 280: TOEA: Form D: Request for additional information for the taking of evidence

- ① Click **Send to review** from a Workflow dropdown list.

Figure 281: TOEA: Form D accept review

- ② The user with Reviewer role should select **Accept Review** to move it to the next step (Reject and Return for amendment are also the available options). The Assigned can also edit the case.

The screenshot shows the JUDEX interface for a TOEA test. The left sidebar contains navigation options: Start new request, DASHBOARD, ISSUED REQUESTS, RECEIVED REQUESTS, DRAFTS, STATISTICS, and DOWNLOADS. The main area displays the TOEA test details for TOEA-PL-CZ-2024-10-24-0001-1. The 'Form D' tab is active, showing the 'SIGNATURE AND DATE' section. The right-hand menu is open, and the 'Preparation for signature' option is highlighted with a green circle and the number 3.

Figure 282: ToE Form D: preparation for signature

③ The user with Sender role should select **Preparation for signature** to sign and upload the signed document (other available options are: Reject and Return for amendment). The Sender cannot edit the case.

The screenshot shows the JUDEX interface for a TOEA test. The left sidebar is the same as in Figure 282. The main area displays the TOEA test details for TOEA-PL-CZ-2024-10-24-0001-1. The 'Form D' tab is active, showing the 'REQUEST FOR ADDITIONAL INFORMATION FOR THE TAKING OF EVIDENCE' section. The right-hand menu is open, and the 'Sign' option is highlighted with a green circle and the number 4.

Figure 283: Signing SoD Form D

④ The user with Sender role should select **Sign**.

- ⑦ Click **Edit** on the right side of a message. A pop-up where you can edit the message and attachments will appear.

Figure 345: Sending a reply to 'Send other information' message

- ⑧ Click **Send** to send a message to the Executing Authority.
- ⑨ Your sent message can now be accessed from **Event & Message Timeline** tab.

10.1.16. SoD Form L generation

SoD Form L is an additional document which should be attached to the documents to be served by a receiving agency.

Figure 346: SoD Form L generation

① Click on **Generate Form L PDF** from Workflow.

Figure 347: SoD Form L language selection

② RI displays pop-up with languages icons. Select the language.

When you click icon with the preferred language, RI downloads the file to your disk. You can print the document and attach it to the documents to be served to the addressee.

10.1.17. Document signatures

Each SoD or ToE form (defined by the Regulation) needs to be signed. The user can select one of the following option:

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

- signature in PAdES format (default and recommended option)
- other types of signatures

When ‘Other types of signatures’ option is selected, then another type of document can be uploaded (e.g.: jpg, jpeg, png). The document must be signed with one of the following: digital signatures or seals, stamps, handwritten signatures.

When ‘Other types of signatures’ option was used during a form sending, the following warnings are visible at the receiving side:

4.	 image (6).png	Non PAdES signed document	Created at: 05/11/2024 10:47	Size: 130 KB	Antivirus status:  
----	---	---------------------------	---------------------------------	-----------------	---

Figure 348: Warning in Overview tab

Figure 349: Warning in attachment section

10.2. Technical Evidence

Received messages within cases contain technical evidence that can be accessed and downloaded, consisting of a Token.xml and a Token.pdf. These assure the receiver of the validity of the document received from the counterpart and can be found in the Overview tab under the ‘Attached documents’ section.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22

e-CODEX approves the validity of the document. It is attested that it fulfils the requirements to be legally valid in the sending country.

Further details can be found in the attached validation report and its technical assessment.

Figure 350: Technical Evidence

10.3. Copy case

This feature can be used to save time by copying case(s) when a similar request needs to be sent to several Executing Authorities.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Copy Case can only be performed by the user with Author role at Issuing Authority on Draft, Issued, Withdrawn or Closed cases.

The screenshot shows the top navigation bar of the SODA system. The 'Copy Case' button is highlighted with a green circle and the number 1. The interface includes tabs for 'Overview', 'Form A', and 'Event & Message Timeline'. Below the tabs, there is a table with details about the issuing and executing states, including flags for Poland and the Czech Republic, and language codes (CS, EN, SK).

Figure 351: 'Copy Case' button

① To copy a case, a user opens the respective case they wish to copy and clicks the **Copy Case** button.

The screenshot shows a modal window titled 'Copy a case'. It has a close button (X) in the top right corner. The main section is labeled 'Subject of Request' and contains a text input field with the value 'TEST_SODA', which is highlighted with a green circle and the number 2. At the bottom, there are two buttons: 'Cancel' on the left and 'Continue' on the right, with the latter highlighted by a green circle and the number 3.

Figure 352: 'Copy Case' pop-up window

② A new subject / case title needs to be entered

③ Select 'Continue'.

The screenshot shows the 'Copy Case: New case creation' interface. The title 'TEST_SODA' is highlighted with a green circle and the number 4. The interface includes a top bar with 'Delete Case', 'Download', 'Copy Case', 'Comment', and 'Workflow' buttons. Below this, there are tabs for 'Overview', 'Form A', and 'Event & Message Timeline'. The main content area displays details about the issuing and executing states, including flags for Poland and the Czech Republic, and language codes (CS, EN, SK). At the bottom, there is a section for 'ASSIGNED USERS' showing a user named 'SoDAuthor1 Ca1' and a section for 'ATTACHED DOCUMENTS' showing 'No attachments yet'.

Figure 353: Copy Case: New case creation

④ A new case is created. Most of the data contained in the original request is copied.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

10.4. Download the complete case

All users having access to the case (by assignment or by privilege) have the possibility to download the complete case to the local storage (PC or network shared disk).

The user can request to prepare a file for such download at any time while having access to the case. This request is triggering the process of completion of all case information, which can take some time, especially if the case has many large attachments. The case (e-forms, all messages, and attachments) will be compressed into a ZIP file. This ZIP file is accessible later, even if the user meanwhile has been revoked from handling the case or the case has been deleted.

Downloaded ZIP file contains comments, forms, messages.

Figure 354: 'Download' button

① To schedule a download, user must go into the case details screen and use the **Download** button.

Figure 355: Downloading a ZIP file

② Then, the user must set the name of the ZIP file with case details.

③ Then, the user clicks the **Download** button again.

If everything went smoothly, user should receive this toast notification:

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Figure 356: Download confirmation

Downloaded ZIP-file lands in DOWNLOADS section, on the left-hand menu.

Figure 357: 'Downloads' section

The files that will be downloaded may have several statuses:

Ready - this means the file is ready to download,

Scheduled - this means that the file is waiting in a queue to be ready for download,

Error - means that the action to prepare the document for download has failed.

10.4.1. Deleting files from DOWNLOADS

Figure 358: Deleting files from 'Downloads' section

You can delete unnecessary downloads by using the 'x' icon.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

10.5. Internal Comments

Internal comments can be added to a case along with attachments. These comments and attachments are only visible in the Issuing or Executing Authority timeline.

Comments are only visible internally and not transmitted anywhere.

Any user having access to the case can place a new comment or edit (add or delete an attachment, edit the text) and delete an existing comment.

Figure 359: 'Comment' button

① To add a comment, a user needs to be inside an SoD or ToE and select a **Comment** button.

Figure 360: Adding internal comments

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

② Once an internal comment is added, internal attachments can be added and both can be saved.

Figure 361: Comments displayed in the ‘Event and Message Timeline’

③ All comments are visible in the **Event & Message Timeline** of that single case. After deletion of the comment, it is no longer visible in the timeline.

10.6. Workflow menu

Figure 362: Workflow menu

The Workflow menu provides actions possible for drafts, issued and received cases. It serves both Issuing and Executing Authorities. Additionally, it allows sending the messages between these Authorities. Available options set-in drop-down menu depend on user role and workflow state of the Case.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

10.7. Close case

Closing a case takes effect only on closing side. The counterparty is not notified about the closure of the case. This action is not visible as a status on the timeline or as a global status of a case.

Figure 363: Closing a case: Workflow menu

- ① Click **Workflow > Close a case**.
- ② Portal displays a warning pop-up before case closure.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Figure 364: Warning pop-up before case closure

③ The status will be changed to **Closed**.

Remarks:

- Some actions of Workflow menu are no longer available. However, you can still use Workflow menu to:
 - Send other information,
 - Reopen the case.

10.7.1. Re-open closed case

Reopening a case takes effect only on your Issuing or Executing Authority's side. The corresponding Executing or Issuing Authority is not notified about the reopening of a case. This action is not visible as a status on the timeline or as a global status of a case.

To reopen a case:

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Figure 365: Reopening a case: Workflow menu

- ① Click **Workflow > Reopen a case**.
- ② The status will be changed back to **Issued**.

10.8. Download PDF and Print

The button 'Get PDF/Print' is visible for all forms and predefined messages in form tabs of the SODA/ SODB/ TOEA/ TOEL.

Figure 366: 'Get PDF / Print' button

- ① Select a form tab which you wish to download.
- ② Click **Get PDF / Print**, which will trigger downloading PDF file to your computer.

Wait until PDF download is completed. Depending on the connection and PDF size, delay in download may occur. Open the downloaded file in a web browser or PDF reader (Adobe Acrobat or other). Use Print feature of your browser or PDF reader to print a file.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

10.9. Attaching files to a case

The button is visible for cases in **draft stage**.

Figure 367: Attaching files to a case

- ① Create a form and the system displays a draft version.
- ② Click **Attach Document**.
- ③ A dialog box allowing you to browse the file system will be displayed.
- ④ Browse your system and select a file to attach OR select the file and Drag and Drop onto the Reference Implementation.
- ⑤ The file will be added to Attachments and saved in the draft.
 - Repeat steps 3-5 to add another file, if needed.
 - To remove an attachment (Be careful! You can remove also attachments added by someone else), click 'x' icon visible in the attachments box.
 - Recommended maximum size of attachments is 25MB however, please check the information for each country to ensure you are not exceeding the specified limit, as some countries may have a lower acceptable file size limit. If you are not aware of the recommended limits, please contact your local support team.

10.10. Mandatory fields

Mandatory fields are marked with an asterisk (*) symbol. See example below:

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22

2.5. Email: *

Figure 368: Mandatory fields

There are also conditional validation fields which are mandatory only if certain conditions are met/certain options selected. In these cases, these fields are marked by a red border and an error message.

10.11. Virus checking

A virus check is automatically performed by the Reference Implementation whenever a file is attached to and/or when a file is downloaded from a received communication.

Clam Anti-Virus software, developed by Cisco Systems, is provided. It is a cross-platform open-source antivirus software with a GNU (General Public License). Anti-virus checks are performed automatically.

③ When an attachment is received, the anti-virus scan will be performed on the receiving authority's side.

10.12. Save a draft

The button is visible at the bottom of forms and predefined messages for cases in **draft mode (SODA/ SODB/ TOEA/ TOEL)**.

The screenshot shows a web form titled "REQUEST FOR ADDITIONAL INFORMATION OR DOCUMENTS FOR THE SERVICE OF DOCUMENTS". The form includes a header with "rm E", "Form K", and "Event & Message Timeline". Below the header, there is a "Validation check" status. The main content area contains a reference to the EU Regulation (EU) 2020/1784 and a form with fields for "Reference no of the transmitting agency", "Reference no of the receiving agency", and "Addressee". The "Reference no of the receiving agency" field is marked as required and has a red border. At the bottom right of the form, there is a "Save" button and an "Auto save" toggle. Two green circles with numbers 1 and 2 are overlaid on the "Save" button and the "Auto save" toggle respectively.

Figure 372: Saving a draft

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

① Click an active **Save** button. The button is not active if the form has been saved previously/automatically and there are no new changes that could be saved.

② **There is also ‘Auto save’ option.** When the auto save is enabled, changing a selected section in a navigational menu of a form automatically saves the currently displayed section. If you accidentally change the section without clicking the **Save** button, the entered data will still be saved automatically.

When the Auto save is **disabled**, you must manually click the **Save** button to save new data in the draft.

Figure 373: Unsaved data notification

NOTE: If the user does not save changes manually, the system will display a pop-up reminder after switching to another section or window.

10.13. Toast Notifications: errors, warnings, and success confirmation

Confirmation messages are displayed as a message at the bottom of the screen. These messages disappear after a few of seconds.

Toast notification (success - green) confirms the requested action was completed successfully.

Example:

Figure 374: Success

Toast notification (warning - orange) warns that some actions or information required is still missing so that the system cannot complete the desired action properly.

Example:

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Figure 375: Warning

Toast notification (error - red) informs that the requested action was not completed due to lack of information, insufficient access rights or by malfunction of the internal components of the system.

Example:

Figure 376: Error

10.14. Change subject of a draft case

The button is visible only for users with the role Author, for cases in DRAFT status only, before the DRAFT is set as COMPLETED. If one completes the case, the only way to change the Subject of the Draft is to return the case for amendment to Author.

Figure 377: Changing the title of the case

- ① Click the icon to change the title of a case.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Figure 378: Saving case title

② Edit the title and click **Save**.

10.15. Delete a case

Only cases in a **draft stage** can be deleted without any additional actions. This functionality is available for the SoD and the ToE requests.

Figure 379: 'Delete Case' button

① Only users assigned to a case (that must be still in Draft status) and having the edit right, can delete the case from the RI.

Figure 380: Deleting a case

After clicking the **Delete case** button, the Reference Implementation will display a pop-up requesting confirmation of the operation.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

NOTE: Please note that there is also the option to delete cases at any status, but to do so, the user must precede this operation with the “Close a case” or “Withdrawal” function from the “Workflow” button.

User with the Supervisor and Assigner roles do not have to be assigned to the cases to be able to perform this operation. According to their privileges, they see all cases in their authority. Please keep in mind that user with Assigner role can use “Delete” functionality only for received cases. After deleting the case, all communication between the parties involved is closed, and it will no longer be possible to send or receive any messages or forms within the case. It is recommended to send service message and wait until the service message reaches the addressee. Otherwise, when a user deletes the case before it reaches the receiving authority, the user cannot check if the service message was delivered. Moreover, it might cause errors (technical confirmation to the message that no longer exists).

10.16. Cases and tabs content

10.16.1.1. Overview tab

The screenshot shows the 'Overview' tab of a case in the SoDA test system. The interface includes a top navigation bar with the case ID 'SODA-PL-CZ-2024-03-19-0002-1' and a 'Workflow' dropdown. The main content area is divided into several sections: 'Overview' with tabs for 'Form A', 'Form D', 'Form I', and 'Event & Message Timeline'; 'ISSUING STATE' (2) showing 'Republic of Poland'; 'EXECUTING STATE' (4) showing 'Czech Republic'; 'TRANSMITTING AGENCY' (3) showing 'Auth1'; 'RECEIVING AGENCY' (5) showing 'Auth2'; 'Status' (6) showing 'ISSUED'; 'Linked cases' (7) showing a link to 'SODA-PL-CZ-2024-03-05-0001-1'; 'Assigned users' showing 'Test All Roles And Groups Assigned' under 'Auth1'; and 'Attached documents' (8) showing two files: 'Token.xml' (9 KB) and 'Token.pdf' (286 KB), both with 'Antivirus status: ✓'. The interface also includes buttons for 'Display roles' and 'Edit users'.

Figure 381: Cases and tabs content

It contains information such as:

- ① Subject of a case
- ② Issuing State

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

- ③ Issuing Authority
- ④ Executing State
- ⑤ Executing Authority
- ⑥ Status
- ⑦ Linked cases (if any)
- ⑧ Attached case documents

10.16.1.2. Change of authority

① When one creates a new case in a draft state (before setting the draft as completed), the executing state and executing authority can be changed. After changing the case status from draft to completed, the user can also make a return for amendment, which will enable re-editing executing state and authority.

The screenshot shows the SODA interface with the following details:

- Top Bar:** SODA, Delete Case, Download, Copy Case, Comment, Workflow, and an information icon.
- Overview Tab:** Form A, 16/04/2024 10:50, Event & Message Timeline.
- ISSUING STATE:** Republic of Poland (with flag icon).
- ISSUING AUTHORITY:** CA1 Ministerstwo Sprawiedliwosci (Departament Wspolpracy Miedzynarodowej i Pra ...).
- EXECUTING STATE:** Czech Republic (with flag icon).
- ACCEPTED LANGUAGES:** CS, EN, SK (with language icons).
- EXECUTING AUTHORITY:** CZ(1) Krajske statni zastupitelstvi Usti nad Labem.
- Action:** A button labeled 'Choose authority' is highlighted with a green circle containing the number 1.

Figure 382: Change of authority

Once 'Choose authority' is selected, all available authorities for this type of request (SODA/SODB/TOEA/TOEL) with proper instrument and competence assigned will be shown:

Figure 383: Change of authority: search tool

10.16.1.3. Selecting correct Executing Authority

It is presumed that practitioners will know to which Executing Authority their request should be directed. Users might use e-Justice Portal (or consult EuroJust) to find out the appropriate executing authority for SoD or ToE by performing complex search. The user at issuing side needs to provide appropriate data to the search tool according to the Drools Rules (Business Rules) which are defined per each Member State in CDB (eg. municipality, postal code). The search tool will display a set of authorities which have appropriate country code and a pair of instrument and competence assigned.

Links to e-Justice Portal:

[European e-Justice Portal - Serving documents \(recast\) \(europa.eu\)](https://e-justice.europa.eu)

[European e-Justice Portal - Taking evidence \(recast\) \(europa.eu\)](https://e-justice.europa.eu)

The Member States have an obligation to keep authorities' data in CDB correct, complete and up to date, with appropriate instruments and competences assigned.

If executing state has dispatching authorities (Spain, Italy), only those dispatching authorities are entitled to receive new cross-border requests and forward them to other authorities with competence RI – Forwarded Authority (RFA) assigned, according to their territorial jurisdiction.

10.16.1.4. Suggestion mechanism during searching for executing authority

The suggestion mechanism is a feature that enhances user searches for the correct authority by providing authority name autocompletion in a search tool. When a user starts typing in the search field, the search tool displays available options.

- ① User selects receiving Member State and clicks ‘Choose authority’ button.

2. RECEIVING AGENCY *

i If a country is not present on the below list, it might not accept this type of request.
Please check the reason on this page:
https://e-justice.europa.eu/38580/EN/serving_documents_recast?clang=en

10.16.1.5. Creating a link to another case

Creating links to other cases is possible for drafts, issued and received cases. Such references may provide relevant information of complementary value to the case. Links are displayed on the Overview tab in the ‘Linked cases’ section.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

See the example below:

Figure 390: Creating a link to another case

Follow the steps below to add a link to another case:

① Click **Add case link**.

Figure 391: Add case link: Typing reference number or the subject

② Type a **reference number** or **the subject**. The system will search for Global Case IDs through cases and if a result is found, the reference number of the matching case will be displayed for selection in the dropdown. Otherwise, a new manually typed case reference can be added to the system.

Figure 392: Add case link: Selecting the reference number

③ Select the **reference number** from the list.

Figure 393: Add case link: Saving the selected link

④ Click **Save**.

Figure 394: Linked cases displayed

⑤ The reference will be added to the section and automatically saved.

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

10.16.1.5.1. Deleting linked cases

Figure 395: Removing linked references

⑥ You can remove linked references by clicking the Trash bin icon.

NOTE:

1. Links/references to other cases are not transmitted to other Competent Authority.
2. Linking is possible to existing cases in the Reference Implementation or to any external ‘paper’ cases. The reference is a free form allowing practitioners to enter their custom references.
3. Where a reference that already exists in the RI is added, then the linked case can be easily retrieved and opened.
4. Adding these references may provide links to other SoDs/ToEs and/or other external sources.

10.16.2. Event & Message Timeline

This tab is visible for all cases, including drafts, issued and received cases.

Figure 396: Event & Message Timeline: Overview

It contains a timeline with:

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

- Status Changes.
- Messages exchanged between Authorities within a case. For issuing side, all communication with all Executing Authorities is visible. For executing side, messages sent and comments added by other Executing Authorities will not be visible.
- Local user's comments (not transmitted).
- Confirmation that a sent message has successfully reached its destination (green tick).

Figure 397: Event and Message Timeline: Confirmation that a sent message has successfully reached its destination

- If a message fails to arrive at destination, after automatic three re-sends, a red coloured message will be visible with an option to re-send by user with role Sender.

10.17. Assigning Users to a case

The 'Supervisor' is a privileged role that can see all cases within their authority. The 'Assigner' is a role dedicated to assigning users to the cases. Users with those roles assign users to a case, so that they can handle the internal workflow. The 'Supervisor' assigns appropriate users to a case, so that access to a case is limited to designated person(s) and confidentiality is always maintained.

Practitioners with Supervisor role can assign users to all cases in their authority (to Issued, Received and to Drafts) at any time. Practitioners with Assigner role can assign users to cases at the executing side.

Also, the 'Author' can manage users, but only to cases that this user creates.

Users with an Author, Reviewer, Sender, Guest/Viewer roles in their authority will only see cases to which they have been assigned and do not have access to any other cases managed by their authority.

Additionally, only from the perspective of the executing side, there is also the role of a Dispatcher, who can forward cases to other authorities (this role should be assigned to users in the Member States where dispatching authorities operate; it is not needed in the Member States that do not have such authorities).

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Please keep in mind that users are not assigned to perform one specific role. Users are assigned to a case. If an assigned user has multiple roles, the user can perform several actions.

NOTE: Please note that in the sub-forms that have internal workflows (listed below), if the user has multiple roles (Supervisor, Author, Reviewer, Sender), this user will be able to participate in the workflow only when is assigned to this case. Otherwise, the workflow will not be visible for this user and no action could be performed.

Sub-forms with internal (acceptance) workflow (Author – Reviewer – Sender):

10.17.3. Assign users pop-up from the Overview tab:

The screenshot shows the 'Assign users' pop-up from the Overview tab. The interface includes a header with 'test' and 'National Case No.' with a plus icon. Below the header, there are tabs for 'Overview', 'Form A', and 'Event & Message Timeline'. The 'Overview' tab is active, showing details about the case, including the issuing state (Republic of Poland), issuing authority (CA1 Ministerstwo Sprawiedliwosci), executing state (Czech Republic), and executing authority (CZ(1) Krajske statni zastupitelstvi Usti nad Labem). The status is 'DRAFT'. The 'ASSIGNED USERS' section shows a list of users, with a green circle and the number '1' highlighting the 'Edit users' button. The 'ATTACHED DOCUMENTS' section shows 'No attachments yet'.

Figure 404: Assign users pop-up from the Overview tab

① Supervisor, Assigner and Author can also access the ‘Assign users’ pop-up from the Overview tab by clicking **Edit users** button.

10.17.4. Assigns users from a different authority to a case (sharing the case)

Only a user with the Supervisor role can perform this action. A Supervisor may want to share a case with other Supervisors or Assigner from other authorities (within the same RI Instance) in their home country.

The screenshot shows the 'Issued Requests' page in the JUStice Digital EXchange System (JUDEX). The page has a header with the European Commission logo and 'JUStice Digital EXchange System (JUDEX)'. The left sidebar contains a menu with 'Start new request', 'Dashboard', 'Issued requests', 'Received requests', 'Drafts', and 'Downloads'. The main content area shows a table of issued requests. The first row has a green circle and the number '1' highlighting the 'Assign users' button in the 'Status' column. The table columns are: Issued date, Ref, Title, National Case No., To, Type, and Status.

Figure 411: Assigning a Supervisor from another authority: Assigned users section

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

⑧ Newly added Supervisor will appear in ⑧ ASSIGNED USERS sections and have the same rights as the original Supervisor and will be able to add additional users from their own authority to perform tasks.

Both authorities shall see the same information and messages in the **Event & Message Timeline** tab exchanged with their counterpart in another Member State.

Figure 412: Assigning a Supervisor from another authority: Assigned users section displayed in the Overview tab

10.18. Revoking access to a case

As mentioned in the previous section, users with the roles of Author, Supervisor and Assigner (only for the received cases) have privileged permissions. In addition to adding users, these roles can also revoke access to cases within their authority.

10.18.1. Revoking access

Figure 413: Revoking access to a case: Overview tab

① A user with role Supervisor or Assigner selects ‘Edit users’ button.

Figure 414: Revoking access to a case

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

② Click ‘x’ icon near username to remove a user.

The screenshot shows a modal window titled 'TOEL_toel' with a close button (x) in the top right corner. A green circle with the number '3' is placed over the 'Yes, remove' button. The modal contains an orange warning bar with the text 'Are you sure you want to remove tom_all1 Site1?' and two buttons: 'Yes, remove' and 'Cancel'. Below this is the 'Assigned users' section, which includes a table with one user 'tom_all1 Site1' and a 'Test All Roles And Groups Assigned' button. The 'Assign users to the case' section has a 'Auth1' header, a 'Change authority' button, and a list of roles: Author, Reviewer, Signer 1, Signer 2, Sender, and Viewer. There is a search bar with the placeholder 'Type name' and a 'Search' button. At the bottom, there is a 'Go to overview tab >' link and a 'Close' button.

Figure 415: Revoking access to a case: Warning message

Then, the Reference Implementation displays an action to be confirmed. The Supervisor or Assigner should select ③ ‘Yes, remove’, if they want to revoke access to the case for the selected user. Alternatively, they can cancel the action.

The screenshot shows the same modal window as Figure 415, but the 'Assigned users' section is now empty. A green circle with the number '4' is placed over the 'Test All Roles And Groups Assigned' button. The 'Assign users to the case' section remains the same, with the 'Auth1' header, 'Change authority' button, and list of roles. The search bar and 'Search' button are also present. At the bottom, there is a 'Go to overview tab >' link and a 'Close' button.

Figure 416: Revoking access to a case: Assigned users section

④ After the user is successfully removed from the case, they also disappear from the list in the ASSIGNED USERS section.

② Then the Reference Implementation displays a pop-up window to confirm this operation.

Figure 419: Revoking access to the case from the Overview tab: Assigned users section

③ After the user is successfully removed from the case, they also disappear from the list in the ASSIGNED USERS section.

NOTE: If a case has been shared with another authority, only the user with the role of Supervisor from original/initially authority can remove the Supervisor and other users from the authority to which the case has been shared.

10.19. Access restrictions for Assigner

There is a possibility to manually remove access for Assigners from a request. Although this feature is enabled when a request is being received by an executing authority, it should be used after users have been assigned to the case (or after a case forward).

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

Figure 420: Toggle view near Assigned Users label

Toggle is visible for users with Supervisor, Assigner or Dispatcher role. When a user clicks on a toggle, the RI displays a warning pop-up: ‘Are you sure you want to remove all Assigner's access to the case? Only Supervisors will continue to have access to this case. No changes on this case are possible afterwards.’

Figure 421: Toggle popup window

When user confirms, access of all Assigners to that case will be restricted (this is applicable only to Assigners who had access to the case by default, not to the users that have been manually assigned to the case).

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

10.20. Translate

10.21. Language used for communication

Each Member State should send out requests in one of the accepted languages defined by the receiving State. If the request is written in a language that is not used by the receiving State, it can be accompanied by an additional translation into one of the languages accepted in that Member State.

The acceptable languages have been provided by the Member States to the European Commission and are made available on the e-Justice Portal. This information is also visible in the RI, in the Overview Tab, next to the Executing Authority section. Additionally, the user will receive a pop-up with a hint before generating a PDF document (after 'Preparation for signature' step).

Figure 422: Warning message: language of the document

The RI does not validate whether the request was created in an accepted language of the receiving State. The RI does not prevent sending the request in a language that is not accepted by the receiving State.

The accepted languages for each Member State can be checked on the e-Justice Portal at the following links:

[Serving documents \(recast\) | European e-Justice Portal](#)

[Taking evidence \(recast\) | European e-Justice Portal](#)

The recommended way to provide the signed request in an accepted language is to:

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

1. Complete the form in a language that the user knows (to minimize the risk of mistakes).
2. When a form is completed, after a user clicks Sign option from the Workflow menu, the RI displays a Signature pop-up where a user can choose any official EU language from the dropdown list.
3. After selection of the language, when a user clicks Download button next to the dropdown list, the RI generates PDF document in a selected language.

Please remember that when the user changes language of the RI, only the labels are changed to the target language. Inputs are not translated, therefore when filling out the form, the fields should be filled in the language of the receiving state.

To obtain automatically translated inputs, an authority can use the machine translation (eTranslation service) to translate the request into the language accepted by the receiving State. Therefore, when filling out the form, the fields should be filled in the language of the receiving State. When machine translation is used, the eTranslation service provides labels that comply with the Regulations, and inputs that are translated automatically. The PDF document provided by eTranslation can be attached as a supplementary attachment.

10.21.1. Human translation

SoD and ToE legal translation files carried out by sworn translator(s) should be attached as a file attachment to the SoD and ToE or attachment to the message sent later to the Executing Authority at any time, but the machine translation tool (eTranslation) may be a very useful feature in urgent cases.

10.21.2. eTranslation

eTranslation is a machine translation service provided by the European Commission that is used for internal processes. For more information on the eTranslation tool, see [here](#).

The tool has been implemented in the RI on the sending and receiving side where it is possible to translate text fields of messages and documents created within the system. The tool might be useful for a general understanding of the case, but it is important to highlight that it does not affect in any way the need to provide official translations where relevant.

Each user assigned to a request can request for machine translation of a form.

NOTE: Not all the form's fields are being translated by eTranslation service. The following types of fields are not being translated:

- Fields that contain proper names (name of the authority, name of the natural or legal person etc.)

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

- Fields that contain business data (address, telephone number, fax, e-mail, postal code etc.)
- Fields that contain numbers (identity number, number of enclosures etc.)
- Non-text fields (date pickers, radio buttons, checkboxes, titles, headings etc.)

The eTranslation service translates only inputs provided by the user. The labels presented in the system in each language are compliant with the Regulations.

10.21.2.1. Requesting for eTranslation

① User opens the form that should be translated and clicks on **Form Translation** button.

Figure 423: Requesting for eTranslation

② RI displays **Request eTranslation** pop-up.

Figure 424: Requesting for eTranslation: selected languages

Version: 2.10	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-05-22
---------------	--	-----------------

③ User selects **source language** and **target language** and clicks on **Request eTranslation**.

Figure 425: eTranslation successfully requested toast notification

④ RI displays a toast notification **eTranslation successfully requested**.

Figure 426: eTranslations folder

⑤ If a user opens **eTranslations** tab, RI displays a table with all requested machine translations (a process of machine translation generation might take a few minutes).

⑥ User can download a file with translation by clicking on **Download** button.

⑦ User can remove a file with translation by clicking on 'x' icon next to this file.

---------------	--	-----------------

10.22. Parties from countries outside the EU

From a business perspective, there may be occasions when it is necessary to add parties—such as applicants, claimants, petitioners, defendants, respondents, or representatives—from countries outside the EU. To meet this requirement, a comprehensive list of all countries is available in the following instruments/sections (with EU Member States appearing at the top of the list):

SODA:

Form A, section 3: Applicant(s) (field 3.2.3)

SODB:

Form C, section 1: Addressee (field 1.2.3)

TOEA:

Form A, section 4: In the case brought by the claimant/petitioner(s) (field 4.2.3)

Form A, section 5: Representatives of the claimant/petitioner (field 5.2.3)

Form A, section 6: Against the defendant/respondent(s) (field 6.2.3)

Form A, section 7: Representatives of defendant/respondent (field 7.2.3)

TOEL:

Form L, section 5: In the case brought by the claimant/petitioner(s) (field 5.2.3)

Form L, section 6: Representatives of the claimant/petitioner (field 6.2.3)

10.23. Deleting a draft form and message

If a user creates a draft sub-form that is inappropriate or unnecessary in a case processing, the draft sub-form and a message can be removed by using ‘Delete draft’ functionality.

Figure 427: ‘Delete draft’ button in a top menu bar

- ① A user creates an unnecessary sub-form in an ongoing case.
- ② The user clicks the ‘Delete Draft’ button in the respective form tab.
- ③ The Portal displays a pop-up warning the user about the unnecessary action.

Figure 428: Warning pop-up before deletion of a draft

- ④ When the user confirms the action by clicking ‘Delete’, the sub-form and a corresponding message are deleted.

11. REFERENCE IMPLEMENTATION SUPPORT

For usage issues with the Reference Implementation please contact the DG Justice and Consumers Support Team.

The Support Team should be contacted by email:

JUST-SOD-TOE-SUPPORT-TEAM@ec.europa.eu

Please include all relevant information such as your contact details, problem description, type and version number of your internet browser, received error messages, screenshots and any other relevant information.

The Support Team looks forward to receiving further feedback from the Member States so that the Development Team can make additional enhancements to make the Reference Implementation further suited to your needs.
